RE: WCKBG1007KH: THE SUPPLY AND DELIVERY OF FIVE AMS-4 BETA PARTICULATE MONITOR DISPLAY UNIT INCLUDING INTEGRAL VACUUM PUMP AND RADICAL SAMPLING HEAD FOR KOEBERG POWER STATION
Dear Sir/ Madam

Kindly refer to the above subject.

After careful deliberation, we regret to advise that Eskom Holdings SOC Limited would like to cancel the tender for the supply and delivery of five ams-4 beta particulate monitor display unit including integral vacuum pump and radical sampling head for Koeberg power station due to the following reason:

Due to a material error, the invitation to tender documentation stipulated the tender closing date and time as 25 February 2022 at 10:00am, subsequently the tender was published reflecting closing date as the 25 February 2022 at 10:00am.

The correct closing date, as authorised by the tender office was the 24 February 2022 at 10:00am.

To ensure good governance and fairness of the tender process, the tender will therefore be cancelled and re-issued in line Eskom's business need and requirements.

Eskom would like to take the opportunity to thank you for participation in the above.

Yours Faithfully
