

A decorative graphic on the left side of the slide, consisting of three overlapping circular frames. The top frame shows a close-up of solar panels. The middle frame shows a large industrial facility with several tall, cylindrical cooling towers and a body of water in the foreground. The bottom frame shows a helicopter lifting a large, rectangular object (likely a transformer or component) from a transmission tower. The background of the slide is a gradient of blue and white.

## **Clarification meeting for Geotechnical assessment of Carmel-Pluto 275 kV Northern Grid Transmission line**

Date: 23rd May 2022

Compiled by: Mamiki Ramafoko
