## **APPENDIX C: TECHNICAL EVALUATION STRATEGY**

### **TECHNICAL EVALUATION THRESHOLD**

**Mandatory Technical Evaluation Criteria** (gatekeepers) are 'must meet' criteria. These criteria shall not be weighted or point scored, but shall be assessed on a **Yes/No** basis as to whether or not the criteria are met. An assessment of 'No' against any criterion shall technically disqualify the tenderer and shall not be further evaluated against Qualitative Criteria.

**Qualitative Technical Evaluation Criteria** are weighted evaluation criteria used to identify the highest technically ranked tenderer after determining that all the Mandatory Evaluation Criteria have been met. The Qualitative Evaluation Criteria are weighted to reflect the relevant importance of each criterion. The minimum weighted final score (threshold) required for a tender to be considered from a technical perspective is 70%.
