

MAT00474-R SITE CLARIFICATION MEETING

IMPORTANT NOTE:

It is to be noted that there were CIDB system challenges experienced in the publishing of this enquiry that resulted in timing discrepancies in publishing on the various platforms. Due to this, the initial compulsory site clarification meeting for 09 June 2022 as stated in the invitation to tender could not be honored in and therefore another compulsory site clarification meeting was scheduled for 23 June 2022.

This second clarification meeting coincides with protest action planned at Matimba power station for the same day. As it is not clear how safe prospective bidders will be if they attend this clarification meeting, whether or not some Eskom representatives will be available for the clarification meeting, and as it may be too late to re-schedule the meeting, the meeting will go ahead as planned but **will not be compulsory** – i.e. **bidders who are unable to attend the site clarification meeting are allowed to submit their bids and shall not be disqualified as a result of not attending the site clarification meeting.**

Site clarification meeting will be held as follows:

Date: 23 June 2021
Time: 14h00
Location: Matimba Lapa
Matimba Power station
Nelson Mandela Drive
Lephalale
