1. Introduction

An open enquiry process will be followed to source the Water Trucking Services in Kusile Power Station Project. The enquiry will be for the whole of the works resulting in a single contract. The enquiry will be advertised locally. Joint ventures will be accepted. The 90/10 preference scoring system will be applicable.

This document sets out the method and criteria that will be used to evaluate the tenders that will result from this invite.

2. Tender Evaluation Method

Eskom undertook that the tender will not be evaluated on price alone and that Eskom will broadly follow the evaluation process and apply the guideline evaluation criteria mentioned in the Table below for the evaluation of the tender. The following functional analysis process will be followed:

- Evaluate submissions against functional criteria;
- Rate each submission against each criteria;
- Apply weightings and calculate total functional score;
- Eliminate tenders below minimum threshold;

The following minimum thresholds will apply when evaluating the tenderer capability to execute the work required:

Functionality Criteria	Maximum number of points percentage	Tenderers will be expected to score at least the minimum threshold per functional area to proceed to the next step
Technical	100%	70%

Functionality:

A weighted score-card approach is used to evaluate the technical compliance of the tenders against the specifications. Tenders need to have a weighted score of 70% or more for functionality to qualify for further evaluation. Technical has a weighting of 100%, All of the scores will be entered on a single Excel workbook. Each evaluator will be assigned a review responsibility based on his or her area of expertise. Separate reports will be compiled and signed off.

2.1 Safety, Health, Environmental and Quality (SHEQ)

SHEQ will be objective criteria. Submissions will be evaluated against the objective criteria as outlined on the evaluation criteria below.

3. Evaluation Criteria

The following scoring method will be used to score against the technical evaluation criteria.

Technical		Percentage												
1	Company Experience <ul style="list-style-type: none">• Provide evidence (Orders/Contracts/Appointment Letters/Reference Letters/Completion Certificates) of similar projects successfully completed, with verifiable contactable references.<ul style="list-style-type: none">○ 3 year & more similar projects = 30%○ 2 years = 20%○ 1 year = 10%	30%												
2	Management Experience <ul style="list-style-type: none">• Provide CV's of the key management persons (Site Manager and Supervisor with experience in similar project.) <table><tr><td>Site Manager</td><td>Site Supervisor</td></tr><tr><td>5 & more yrs.' experience = 15%</td><td>5 & more yrs.' experience = 15%</td></tr><tr><td>4yrs' experience = 10%</td><td>4yrs' experience = 10%</td></tr><tr><td>3yrs' experience = 7.5%</td><td>3yrs' experience = 7.5%</td></tr><tr><td>2yrs' experience = 5%</td><td>2yrs' experience = 5%</td></tr><tr><td>1yrs' experience = 2.5%</td><td>1yrs' experience = 2.5%</td></tr></table>	Site Manager	Site Supervisor	5 & more yrs.' experience = 15%	5 & more yrs.' experience = 15%	4yrs' experience = 10%	4yrs' experience = 10%	3yrs' experience = 7.5%	3yrs' experience = 7.5%	2yrs' experience = 5%	2yrs' experience = 5%	1yrs' experience = 2.5%	1yrs' experience = 2.5%	30%
Site Manager	Site Supervisor													
5 & more yrs.' experience = 15%	5 & more yrs.' experience = 15%													
4yrs' experience = 10%	4yrs' experience = 10%													
3yrs' experience = 7.5%	3yrs' experience = 7.5%													
2yrs' experience = 5%	2yrs' experience = 5%													
1yrs' experience = 2.5%	1yrs' experience = 2.5%													
3	Plant & Equipment <ul style="list-style-type: none">• Proof on ownership - Vehicle registrations certificates required• Affidavit between owner and leasing party - Vehicle registrations certificates required• Letter of intent to lease - Vehicle registrations certificates required <p>Driver's competencies for all four (4) tankers/trucks to be submitted with one of the above.</p>	15% 5%												

4

SHE Competencies & Mobilisation Plan			
Appointment of SHE Officer, and Safety & Environmental Requirements		10%	20%
SHE Officer Appointment (include CV and Qualification (SHE Officer to have minimum of the following SHE Qualification= (Course in Safety & Environmental Management) =2%			
Annexure B (Acknowledgement of Health and safety rules)-to be signed =1%			
SHE Policy Signed by Company 's CEO=1%			
SHE Plan: which must be compiled in line with the Client latest SHE specification and include Covid 19 management plan =1%			
Baseline Risk Assessment in line with the scope of works=1%			
Valid Letter of Good Standing/ Proof of Registration with the Compensation Commissioner =1%			
Health and safety Costing- The costing must be based on the overall scope of work/service to be performed= 1%			
Mandatory Environmental method statement as per site Standard Environmental Specification=2%			
•			
Method Statement and Mobilisation Plan:		10%	
Method statement indicating how supplier shall deliver the service	5%		
Mobilization plan with timelines	5%		
Total		100%	

4. Technical Evaluation Team

The table below outlines the technical evaluation team members:

Name	Functional Area	Contact number
Mthobisi Lushaba	Contracts Supervisor	+2772 061 1273
Avis Mokoala	Contracts Supervisor	+2772 362 2583
Heavyman Kobani	Contracts Manager	+2772 082 5705
Jacob Malesa	Officer Environmental Management	+2776 738 0033
Sinaye Madiwa	Officer Safety & Assurance	+2773 218 1066
Mosiwa Maibi	Site Services Manager	+2783 770 0249
