PART A REQUEST FOR INFORMATION (RFI)			
Description of the works/goods/services	Request for Information (RFI) on the Environmental Management and Stewardship		
Deadline for submission	02 August 2022	At (South African Standard Time)	10h00
Tender Office address	Retail Centre Megawatt Park 1 Maxwell Drive Sunninghill 2000		

Eskom Holdings SOC Ltd ("Eskom") invites you to submit a:

- **Request for information (RFI)** to submit information for the works/goods/services as stated in the table above. This RFI is a stand-alone information-gathering and market-testing exercise, intended only to inform and assist Eskom's further deliberation and development of a strategy for the Unsolicited Research and Evaluation of the Environmental management and stewardship in the following areas:
 - Emission prevention, reduction and/or improvement technologies;
 - Abatement technologies, techniques and/or strategies for the existing plants;
 - Waste management technologies for better use for solids, liquids, and gaseous effluents;
 - Novel tools and techniques for sustainable development;
 - Technologies to manage the airshed and air-bubbles for air quality management; and
 - Emissions fingerprinting technologies.
 - Water Chemistry and management.
 - Coal by-products utilisation.
 - Fire systems technologies.

Eskom has delegated the responsibility for this RFI to the signatory of this document, whose details can be found below.

We look forward to receipt of your response.

Yours faithfully

		Effective Date	01 August 2016		
		Review Date	September 2022		
		RFI No.	MWP1449CX		

1. BACKGROUND INFORMATION

The government has provided a framework within which unsolicited proposals/concepts may be considered in state owned enterprises (SOE).

This has created an environment where advantage can be taken, by SOE's of the private sector's capacity to conceptualise, package and develop projects whilst ensuring and protecting public policy objectives at the same time.

To take advantage of these provisions, Eskom through RT&D is scoping the market for novel and innovative solutions that may assist in addressing and alleviating the present challenges experienced by the business to enhance its competitive advantage.

2. OBJECTIVE OF THE RFI

- Reduction of emissions and compliance to national standards;
- Stabilise electricity supply resulting in a gradual cessation of load-shedding;
- Optimum management of municipality debt;
- Acquiring technologies to enable repurposing of fossil fuelled power stations whilst maintaining social cohesion and stability in affected communities and livelihoods.
- Maintaining a competitive stake in power production environment.
- Acquiring a market leader status in power generation, transmission and distribution whilst maintaining a reduced carbon footprint and adopting green energy technologies.
- Knowledge of the market trends in power generation, distribution, and transmission.
- Influence Eskom's corporate strategy and key performance indicators.

METHOD AND PLACE OF DELIVERY

All the responses must be sealed and be delivered at the tender box located at the following:

THE TENDER OFFICE
Eskom Megawatt Park Tender office
Northside (Retail Centre)
Maxwell Drive
Sunninghill

All RFI responses must be clearly marked: "MWP1449CX Request for Information (RFI) on the Environmental Management and Stewardship"

FORMAT OF SUBMISSION

The respondent shall be submitted as 1 (one) printed original RFI, plus 1 (one) printed copy.

		Review Date	September 2022		
		RFI No.	MWP1449CX		

5.	At what stage of development is the solution.	
6.	Description of the operation of the solution.	
7.	PLEASE PROVIDE THE DETAILS OF WHERE THE SOLUTION HAS BEEN USED IN PRACTICAL INSTALLATIONS. THE INFORMATION TO INCLUDE, INTER ALIA, THE FOLLOWING:	
7.1	Year of installation.	
7.2	Size of installation.	
7.3	Detailed discussion of the problem that the solution is to solve.	
7.4	Why is the solution preferred?	
7.5	Has the solution been modelled or simulated? Elaborate on methodology.	
7.6	Technical outcomes/results of the modelling or performance of the installation.	
7.7	Has a Life Cycle Assessment (LCA) of the proposed solution been undertaken (ISO 14040)? If yes, provide detailed assessment.	
7.8	Provide Return on Investment calculations and analysis.	
7.9	List of sites where the solution is planned to be implemented and estimated timelines.	
8.	TECHNOLOGY RESEARCH (If currently in research phase).	
8.1	Detailed studies of the proposed solution.	

Confidential
