## **5. EVALUATION PROCESS AND CRITERIA**

### **5.1. BASIC COMPLIANCE**

#### **ANNEXURE A**

#### **DECLARATION OF INTEREST**

I/We understand that any natural/legal person, including employees of the State and/or those related to an Eskom employee/director (as per the definition of “related” set out hereunder), may tender to Eskom. However, in view of possible allegations of favouritism (the practice of showing favour to, or giving preference to some person/group, to the detriment of, or at the expense of another that is entitled to equal treatment or an equal opportunity), should the resulting tender, or part thereof, be awarded to such natural/legal person, as described herein, it is required that the *tenderer/s* declare such interest/relationship where:-

- the *tenderer/s* employees/directors are also employees/contractors/consultants/directors in the state or a state owned entity.

- Oil will be drained by the scrap dealers road tanker.
- The scrap dealer must not do any work on site. They need to send the trucks for the transformer and the road tanker for the oil. Max loading height of the truck for the transformer is 800 mm. Higher than that we will not load.
- HV Engineering has requested that they would like to inspect the transformer during the dismantling process at the scrap dealer premises. This is basically witnessing the disassembly process of the windings. (May not be applicable)

**The scope of work will include the purchase, collection and removal of the Scrap UNIT within 7 days of contract award.**

The purchaser will be responsible for the safe collection, handling, removal, loading and transportation of the material and to clean the site and must provide their own Bins where necessary, qualified labour and suitable certified plant, machinery, equipment and transport for this purpose.

**Payment Price is upfront in full before collection.**

The purchaser must assure the site be left clean at completion of their collection and removal of the goods.

## **7. PRICE SCHEDULE**

As Per tender offer. To include costing for work performed.

### **NOTES**

- Eskom will not be responsible for any damages or losses suffered during the removal of the equipment incurred while working on this project arising from theft, damage or personal injury.
- You will be required to adhere to the condition as laid out by the Eskom site agent with regards to site access etc.
- Littering is prohibited at all times. Facilities will have to be made available on site during dismantling operations for the collection of disposal waste material. No rubble whatsoever is to be left on site.
- Additional precautions must be taken when using cutting equipment. Portable fire fighting equipment must be available on site during all stages of the work programme.
- The 80MVA Transformer is sold as is, and if any oil remains in certain items / scrap / equipment shall become the property of successful contractor and he will be responsible for the oil spillage.

## **8. ENVIRONMENTAL REQUIREMENTS**

The intended activities at the Eskom Sites will have an impact on the environment and as such have to be properly management. Proper management requires that there is compliance with all the relevant pieces of legislation that impact on the development or intended activities. Therefore, the list below indicates the pieces of legislation that impact on the proposed activities. It is important that the Construction Team complies with these. Non-compliance will be unwise and may prove to be very costly for the organisation.
