

A decorative graphic on the left side of the slide, consisting of three overlapping circles. The top circle shows a woman wearing a blue surgical mask and glasses. The middle circle shows a person in a red jacket and mask standing in a public space. The bottom circle shows a blue, spiky virus particle. The circles are arranged vertically and overlap each other.

# **Medical Waste Clarification Meeting SHE Tender Returnables**

Prepared by: Benito Williams

- OHS / Environmental requirements forms part of contractual requirements.
- Only suppliers who have **Passed the Functionality** evaluation will be evaluated for OHS / Environmental .
- After the **First** OHS / Environmental tender evaluation, supplier(s) shall be given **seven (7)** working days to submit outstanding documents.
- Failure to do so means that the supplier shall be regarded as non-responsive.
- Suppliers' documents who have responded will be re-evaluated **Only Once**.
- The supplier(s) shall comply with all OHS / Environmental Tender requirements as per the evaluation criteria to be placed on the Contract.
- The supplier(s) shall comply with all OHS requirements (Site Access SHE File) before Contract award.

- 1. Pre-requisite**  
**Is the acknowledgement of Eskom's OHS rules and requirements form (Annexure B) signed by the Owner / CEO / MD and 2 witnesses**

## **2. Applicable to Medium risk:**

- **Waste management (reduction, re-use, recycling, disposal).**
- **Environmental induction.**
- **Environmental incident management.**
- **Emergency planning for environmental incidents.**

<b>2(a).</b>	<b>Waste management strategy/ Plan:</b> <ul style="list-style-type: none"><li>• A WMP should include a description of the different waste streams expected on site, how these will be stored, transported and disposed of. How will the company manage their waste in this area (where are the registered landfills for the area), as well as the paper trail for proof of disposal, etc.</li><li>• The WMP should also deal with prevention of pollution, littering and waste minimization methods such as reuse, recycle and reduce</li></ul>
<b>2(b).</b>	<b>Environmental Induction:</b> <p>What environmental elements are covered in induction related to the Aspects &amp; impacts register.</p>
<b>2(c).</b>	<b>Environmental Incident Register:</b> <p>This registers is in tabular form with the following fields: Description fo incident, date of incident, reported to, actions taken and status of recommendations</p>

**2 (d) Emergency planning for environmental incidents.**

**3. Environmental Aspects & Impacts (Risk Assessment):**

- **Impacts and aspects register is usually in a tabular format and is an account of activities which will be done on site, the aspect of the environment which could be affected and the type of impacts which could result.**
- **Risk Assessments which identified ways in which the environment would be impacted were also awarded 1. Must have identified risks prevalent to the project scope e.g. protected & indigenous trees; wildlife interactions**

**4. All: Environmental (or SHE/SHEQ) policy signed by Company Owner/CEO/MD:**

**Commitment to: (1) compliance to environmental compliance obligations; and (2) environmental duty of care.**

Thank you
