

**THE PROVISION OF HUMAN RESOURCES FOR LUBRICATION SERVICES AT LETHABO POWER STATION FOR A PERIOD OF  
TWO (02) YEARS  
ENQUIRY NO. MWP1591GX**

Item No.	Item Description/Query	Eskom Response
1.	Updated NEC3 Term Services Contract Pricelist (TSC3)	Loaded on tender bulletins (Eskom & National Treasury eTender Portal).
2.	Does Eskom supply all materials for the contract?	Yes. Eskom supplies all materials and tools.
3.	In respect of defining a total price, how many hours must be used?	The rates price list is a guide only. We must use a 173 Hour month as a baseline for our pricing. We must compile a detail break down in respect of safety, quality and travel costs included. See updated pricelist
4.	The code 14 Driver's License, what is that for?	<p>Contractor must provide a vehicle to transport our personnel on site, with a PDP qualified driver. The requirement for a Code 14 driver is to assist Eskom with a driver to drive their delivery truck from the store to the workplace, if required, and it doesn't have to be the supervisor. Contractor must provide transport to your personnel on site with a PDP qualified driver, therefore code 14 is advisable and it will be good to have such a person to also assist Eskom to draw materials from stores in case of emergency. It doesn't have to be a Supervisor.</p> <p>NB: Contractor must make sure that do not travel with an open bakkie to transport personnel to &amp; onsite.</p>
