

Annexure P

Scope of Work

Provision of home work home employee transportation service and rental of vehicles from various pick-up points at Daggakraal to Majuba Power Station on an as and when required basis over a five year period.

- Bulk Material Services (Full Service)

Majuba Power Station

1x23 seater @ 15 000km a month per vehicle

1x23 seater @ 5 000km a month per vehicle

NB:

To provide a home work home transportation service or rental of vehicles to ERI employees during all shifts, from their designated pick-up locations and /or areas to their place of work. This service will be rendered during day and night shifts, on weekdays, weekends and public holidays from the areas mentioned below in line with ERI shift patterns and ad hoc requirements when applicable.

All vehicles to be registered with Department of Transport – Licensing division, and all vehicles to be roadworthy. All drivers to hold Professional Drivers Permits (PrDP's). The service provider is required to obtain and maintain all operating licenses, permits or amended requirements by local authorities in accordance with applicable legislation at all times.

The service provider shall ensure that the employees are:

- On time via the agreed vehicles and in a safe manner taking into account all aspects of safety associated to the transportation of staff;
- Dropped off and picked up on agreed time as stipulated by ERI;
- Employees shall be dropped off at the work place 20 minutes prior the commencement of shift and collected at the work place 10 minutes after the shift has been completed.
- The Service Provider shall ensure that the driver commence employee collection with sufficient time without violating any traffic rules and meet agreed drop off time of 20 minutes prior to the shift commencement.
- Door-to-door service would be required only at night.
- The driver, fuel, maintenance/service and repair of vehicles will be for the Service Provider's own costs and not for ERI account. (Full Service)
- The Service Provider will be required to operate on 24/7 basis during the festive season (December-January) to support ERI's 24/7 operation during this period.
- Transport is based on demand of employees.

SPECIAL AD HOC REQUIREMENTS

The Service Provider will further be required to support ERI in ad hoc requirements for transportation of employees whereby ERI may request an additional quotation from the Service Provider. Ad hoc requests include (but are not limited to) meetings, functions and funerals.

CRITICAL TO NOTE: The contract is on an “as and when” basis will be valid for only as long as is required by ERI. The service may be cancelled at any point in time during the contract period. The service is subject to ERI’s requirements as determined by ERI.

Vehicles supplied / provided by the service provider must comply to regulatory and ERI requirements. The service provider will be responsible for maintaining, repairs and ensuring constant compliance of the assigned vehicles.

A non-compliant vehicle will be stopped from operating and the service provider must correct the non-compliance immediately where practicably possible, or within 24 hours. Alternatively, a non-compliant vehicle must be replaced with a compliant vehicle immediately where practicably possible or within 24 hours. Vehicles on breakdown will be repaired and returned or alternatively replaced within 24 hours.

1.1 DETAILED FUNCTIONAL SPECIFICATION

The vehicle will be utilized to transport employees from various pick-up points at Daggakraal to Majuba Power Station, as well as, on site at the relevant Power Station, to different locations where ERI is required to execute services.

The vehicle must be in a good and compliant state with a maintenance plan. The service provider is responsible for maintaining, repairs and ensuring constant compliance of the vehicle. Normal wear and tear, maintenance and repairs remain the responsibility of the service provider.

A vehicle with high mileage and that is not in a good or compliant state with an up-to-date service history, will be returned to the service provider to be replaced by a compliant lower mileage vehicle with an up-to-date service history. Vehicle mileage not to exceed 200 000km.

A vehicle that is unreliable due to regular breakdowns, will be returned to the service provider to be repaired / maintained or replaced with a compliant vehicle.

No payment will be made for the period a compliant vehicle is not available for use by ERI should the period exceed 24 hours. Failure to either provide a compliant vehicle or replace a vehicle with a compliant vehicle within the stipulated time frame will incur penalties levied against the service provider or potentially termination of the contract.
