#### QUESTIONS AND ANSWERS

No	Questions	Responsible Functional area	Responses
1.	<b>Reverse e-auction</b>  <i>1a – Probes (test leads), batteries, fuses, how will the pricing work as part of the basket as the items are for different equipment</i>	Reverse e-auction	1a – the probes (test leads), batteries and fuses will be removed from the basket and priced at cost plus 10%
2.	<b>Sub-Contracting</b>  <i>2a – if a supplier does not have an accredited lab, is he allowed to make use of another lab that is accredited and submit that lab's accreditation?</i>		2a – Sub-contracting is not allowed for this contract due to the evaluation criteria and requirements
3	<b><u>General</u></b>  Tenderers are encouraged to continuously check for latest tender updates on the Eskom Tender website and the National Treasury e-Tendering website during this clarification period. This will assist tenderers to familiarise themselves with any new developments for them to tender accurately.
