ENQUIRY NUMBER : KZN056

TENDERER NAME : _____

**TENDER CLOSING 13 DECEMBER 2022 AT
10h00AM**

1. Waste Management Plan:

- A WMP should include a description of the different waste streams expected on site, how these will be stored, transported and disposed of. This plan should also make provision of the safe disposal of all waste at registered landfill sites.
- The WMP should also deal with prevention of pollution, littering and waste minimization methods such as reuse, recycle and reduce.

2. COMPETENCY TRAINING CERTIFICATE:

- training certificates for any basic Environmental Management Training: SHE REP, SHEMTRAC, Eskom provided Environmental Legislation training, EA and EMP, tertiary degrees for environmental studies

3. Attach Environmental Aspects and Impacts (Risk Assessment):

- Impacts and aspects register is usually in a tabular format and is an account of activities which will be done on site, the aspect of the environment which could be affected and the type of impacts which could result

4. Provide evidence of the discussion of the following (signed register):

- Eskom Generic EMP for Operations and Maintenance, 240-71555318
- Eskom Requirements for safe processing, handling, storing, disposal and phase-out of asbestos and asbestos containing material, equipment and articles (asbestos Management), 32-303.
