

**ENQUIRY NO:****Introduction**

This document has been developed to set the standard technical evaluation criteria to be used when evaluating the tender submissions. This covers the technical evaluation for the supply and delivery of PPE Accessories for Eskom and its Subsidiaries.

This document contains the evaluation criteria to be used for evaluation of PPE Accessories tender.

**Evaluation criteria**

The aim of the technical evaluation is to establish the capability of tenders to supply good quality PPE that complies with the relevant statutory requirement, local and international standards and the Eskom requirements.

Technical evaluation will be done in two phases, that is, first phase desktop evaluation and second phase warehousing and sample evaluation.

In the first phase bidders are required complete and return the PPE category document attached (Annexure A) confirming the category of PPE the bidder can be able supply. If the bidder cannot supply all the products in a particular category, that category will not be evaluated in the second phase. A letter of support from the local manufacturer confirming that they will be the bidder's supplier for all designated products, which are leather and footwear for this tender. In addition bidders will be required to submit applicable standard compliance certificates (e.g. SANS, EN, CE ANSI) and test certificates (where applicable) for the products they are intending to supply.

The second phase includes visiting the tenderers premises to confirm that their products (sample evaluation) indeed complies to the Eskom specification and SABS requirements. The bidder needs to prepare each product's technical data sheet for evaluation. This phase also includes evaluation of the bidder's warehousing facilities to establish the bidder's potential to hold enough stock.

**Requirements**

Tenderers are required to return the following:

**Phase 1**

- Completed Annexure A. clearly stating the products they can supply, also confirmation that their products comply with the Eskom specification.
- The evaluation will per category. This means that the bidder has to apply for all the products in a category to be considered for that category.
- Letter of support from the manufacturer for all designated products.
- Test and/or standard compliance certificates for relevant products tendered for as per PPE specification.

**Phase 2**

- Prepare samples for the products they have tendered for to be evaluated during the site visits.
- Product technical data sheet. Suppliers should provide data sheets for all items tendered for.
- Allow for a visit to the warehousing facility where the stocks will be kept.

The Eskom Technical Evaluating team will inspect the samples provided for compliance with the Eskom's PPE Specifications and assess the capability of the bidder to keep enough stock.

**NOTE:** Should the tenderer have a product that is not the same as specified in the Eskom specification but can perform according to or better than the one specified they have to list it in the deviation schedule.

**PPE Accessories categories:**

- **Category B – head, face, hand and arm protection**

## ANNEXURE A

NB: To completed and sent back as part of the tender documents.

Tenderer's name					
Manufacturer/Distributor					
Name of Manufacturer to be used if you are a Distributor- Designated products					
Letter of Support from the Manufacturer attached (Yes/No)					
Please indicate which products you are tendering for in the categories below by placing an (x) next to the product. <b>Note:</b> For Phase 1, failure to submit the relevant standards and/or test certificates will lead to disqualification.					
Sub-clause of 240-44175132	DESCRIPTION	Mark with (X) for product tendering for	MANUFACTURER OR DISTRIBUTOR (M/D)	Mandatory Standard and / or tests certificate available where applicable as per PPE specification (Yes/No)	Mandatory Letter of support for designated products (Yes/No)
CATEGORY B					
4.4	HEAD, FACE, HAND AND ARM PROTECTION				
4.4.1	Hard Hats				
4.5.1	Spectacle Visitors				
4.5.2	Spectacle Welders				
4.5.3	Goggles				
4.5.4	Spectacle Sunglasses- In door out door				
	Spectacle Sunglasses- Amber				
	Spectacle Sunglasses- Clear				
4.5.5	Safety Eyewear Cord				
4.5.6	Spectacle Storage Case				
4.5.7	Goggle/Earmuffs Storage Case				
4.5.8	Face Protection – Acid/Alkali Protection (SANS 1404)				
4.5.9	Face Protection – LV Switching				
4.5.10	Face Protection for Cutting and Grinding				
4.5.11	Welding Helmet Hard Hat Assembled				
4.5.12	Welding Helmet Replacement Lenses				
4.5.13	Welding Helmet Filter Arc Welding Shades				
4.5.14	Welding Helmet Filter Gas Welding				
4.5.15	Auto Darkening Full Welding Helmet				
4.6	Hearing Protection				
4.6.a	Protector Hearing earplug re-usable				
4.6.b	Protector Hearing earplug Uni-fit disposable				
4.6.c	Protector Hearing Semi –aural headband				
4.6.d	Protector Hearing Earmuff high performance				
	Protector Hearing Earmuff high performance- hard hat clip on.				
4.19.1	Dust Mask FFP2 with Valve				
4.19.2	Dust Mask FFP2 without Valve				
4.19.	Dust Mask FFP3 with Valve

Page:

**4 of 4****Phase 1 Evaluation Criteria****Note:** This phase is done to evaluate the capability of the supplier to provide the required PPE

Evaluation Criteria	Weighted Score	Requirement Breakdown
Completed Annexure A	30%	The supplier is supplying 100% of PPE Items- 30% 50% of PPE is supplied- 15% No PPE items supplied- 0%
Previous experience on supplying PPE	30%	3 and more years' experience- 30% 1-2 experience- 20% 0 years of experience- 0%
Is the tenderer a Manufacturer or Distributor of PPE	20%	Manufacturer: 20% Distributor: 10%
PPE Technical data sheet	20%	Technical data sheet submitted for all Products- 20% 50% data sheets submitted- 10%
<b>Total</b>	<b>100%</b>	
<b>Minimum Threshold for Qualification</b>	<b>80%</b>	

**Phase 2 Evaluation Criteria****Note:** This phase is done to confirm information submitted during the first phase, therefore if a category does not have a full complement of products it will not be evaluated further. The supplier will be eliminated for that category.

Evaluation Criteria	Weighted Score	Requirement Breakdown
Technical data sheet available	30%	Manufacturer's data sheet for the supplied sample
Sample compliance to Eskom PPE specification	60%	Compliance to PPE specification per product
Stock keeping - warehousing	10%	Warehouse or storeroom with proper shelving and enough space (at least 20 m2) – 100%  Warehouse or storeroom with enough space but no shelves (at least 20 m2) – 50%  No storeroom – 0%
<b>Total</b>	<b>100%</b>	
<b>Minimum Threshold for Qualification</b>	<b>80%</b>
