

Safety Requirements and returnables:

Contractual requirements mean the suppliers will submit the tender returnable during the tender close-out. The evaluation will take place once the mandatory and Functionality evaluation have been completed. Only the shortlisted suppliers who passed mandatory and functionality evaluation threshold will be evaluated. The suppliers will be given only ONE opportunity to submit the outstanding documents within 7 working days. Failure to submit the outstanding documents within the stipulated time; may result in the tenderer being regarded as non-responsive and ineligible for contract award.

The following will form part of the tender evaluation criteria and must be complied with (Note: these requirements are applicable to the tender phase only):

1. Acknowledgement of Eskom's SHE rules, and requirements form (Annexure B) signed and submitted by the tenderer
2. Safety, Health and Environmental Plan aligned with the SHE Specification.
3. Baseline SHE Risk Assessment (BRA)
4. Valid Letter of Good Standing (COIDA or equivalent)
5. SHE policy signed by CEO/ MD
6. Health and Safety costing to include:
 - Medical fitness assessments,
 - risk-based PPE,
 - applicable OHS training which include but not limited to SHE representative, First aid, HIRA, incident investigation,
 - rate per square meter for removing and disposing asbestos.
7. Registration with the department of Employment and Labour as registered asbestos contractor (this service can be outsourced).

Following the signing of the contract, the contractor must compile the Health and Safety file inline with the scope of work, OHS specification and taking into account the risks on site.

No work may begin until the health and safety file has been approved. For the length of the contract, the contractor shall adhere to the OHS, legal, and other requirements, as amended.
