PART C1: AGREEMENTS & CONTRACT DATA

Contents:

C1.1	Form of Offer and Acceptance
C1.2a	Contract Data provided by the <i>Employer</i>
C1.2b	Contract Data provided by the <i>Contractor</i>

C1.1 Form of Offer & Acceptance

Offer

The Employer, identified in the Acceptance signature block, has solicited offers to enter into a contract for the procurement of:

THE PROVISION OF SERVICES FOR THE REFURBISHMENT OF BEARINGS

The tenderer, identified in the Offer signature block, has examined the documents listed in the Tender Data and addenda thereto and by submitting this Offer has accepted the Conditions of Tender.

By the representative of the tenderer, deemed to be duly authorised, signing this part of this Form of Offer and Acceptance the tenderer offers to perform all of the obligations and liabilities of the *Contractor* under the contract including compliance with all its terms and conditions according to their true intent and meaning for an amount to be determined in accordance with the *conditions of contract* identified in the Contract Data.

Options A	The offered total of the Prices exclusive of VAT is	N/A - Enabling Contract
	Value Added Tax @ 15% is	N/A - Enabling Contract
	The offered total of the amount due inclusive of VAT is ¹	N/A - Enabling Contract
	including VAT. The Price will be based on the Rate Table in C2 of this Contract, the Price per SOW will be determined per Task Order issued on a as and when required basis.	

This Offer may be accepted by the Employer by signing the Acceptance part of this Form of Offer and Acceptance and returning one copy of this document including the Schedule of Deviations (if any) to the tenderer before the end of the period of validity stated in the Tender Data, or other period as agreed, whereupon the tenderer becomes the party named as the *Contractor* in the *conditions of contract* identified in the Contract Data.

¹ This total is required by the *Employer* for budgeting purposes only. Actual amounts due will be assessed in terms of the *conditions of contract*.

Acceptance

By signing this part of this Form of Offer and Acceptance, the Employer identified below accepts the tenderer's Offer. In consideration thereof, the Employer shall pay the Contractor the amount due in accordance with the *conditions of contract* identified in the Contract Data. Acceptance of the tenderer's Offer shall form an agreement between the Employer and the tenderer upon the terms and conditions contained in this agreement and in the contract that is the subject of this agreement.

The terms of the contract, are contained in:

Part C1	Agreements and Contract Data, (which includes this Form of Offer and Acceptance)
Part C2	Pricing Data
Part C3	Scope of Work: Service Information

and drawings and documents (or parts thereof), which may be incorporated by reference into the above listed Parts.

Deviations from and amendments to the documents listed in the Tender Data and any addenda thereto listed in the Returnable Schedules as well as any changes to the terms of the Offer agreed by the tenderer and the Employer during this process of offer and acceptance, are contained in the Schedule of Deviations attached to and forming part of this Form of Offer and Acceptance. No amendments to or deviations from said documents are valid unless contained in this Schedule.

The tenderer shall within two weeks of receiving a completed copy of this agreement, including the Schedule of Deviations (if any), contact the Employer's agent (whose details are given in the Contract Data) to arrange the delivery of any securities, bonds, guarantees, proof of insurance and any other documentation to be provided in terms of the *conditions of contract* identified in the Contract Data at, or just after, the date this agreement comes into effect. Failure to fulfil any of these obligations in accordance with those terms shall constitute a repudiation of this agreement.

Notwithstanding anything contained herein, this agreement comes into effect on the date when the tenderer receives one fully completed and signed original copy of this document, including the Schedule of Deviations (if any).

Schedule of Deviations to be completed by the *Employer* prior to contract award

Note:

1. This part of the Offer & Acceptance would not be required if the contract has been developed by negotiation between the Parties and is not the result of a process of competitive tendering.
2. The extent of deviations from the tender documents issued by the Employer prior to the tender closing date is limited to those permitted in terms of the Conditions of Tender.
3. A tenderer's covering letter must not be included in the final contract document. Should any matter in such letter, which constitutes a deviation as aforesaid be the subject of agreement reached during the process of Offer and Acceptance, the outcome of such agreement shall be recorded here and the final draft of the contract documents shall be revised to incorporate the effect of it.

X19	Providing the Service by Task Order	<p>Task Order</p> <p>X19.2 The amount for delay damages for late completion of the service to be calculated at 5% per week of the relevant Task Order value.</p> <p>All safety files (SHE) including Portfolio of Evidence (POE) must be finalised two days prior to the execution of a Task Order and or mobilization to site. Any delays beyond the starting date of the Services/Task Order due to non-compliant SHE files including POEs shall be treated in terms of a delay damages and imposed on the contract as follows:</p> <ul style="list-style-type: none"> • Incomplete SHE files – 1% per day • Incomplete POE's - 1% per day <p>X19.3 The Parties agree that they will collaboratively review the scope of the respective Task Orders and agree upfront on the correct resources for the execution strategy.</p> <p>Task Orders will be issued once the Scope of Work has been confirmed by Eskom. The <i>Employer</i> reserves the right to allocate and or re-allocate outages at the <i>Employer's</i> discretion dictated by business needs.</p>

The <i>additional conditions of contract</i> are	
Z1 to Z11 always apply.	
Z1	Cession delegation and assignment
Z1.1	The <i>Contractor</i> does not cede, delegate or assign any of its rights or obligations to any person without the written consent of the <i>Employer</i> .
Z1.2	Notwithstanding the above, the <i>Employer</i> may on written notice to the <i>Contractor</i> cede and delegate its rights and obligations under this contract to any of its subsidiaries or any of its present divisions or operations which may be converted into separate legal entities as a result of the restructuring of the Electricity Supply Industry.
Z2	Joint ventures
Z2.1	Not applicable
Z3	Change of Broad Based Black Economic Empowerment (B-BBEE) status
Z3.1	Where a change in the <i>Contractor's</i> legal status, ownership or any other change to his business composition or business dealings results in a change to the <i>Contractor's</i> B-BBEE status, the <i>Contractor</i> notifies the <i>Employer</i> within seven days of the change.
Z3.2	The <i>Contractor</i> is required to submit an updated verification certificate and necessary supporting documentation confirming the change in his B-BBEE status to the <i>Service Manager</i> within thirty days of the notification or as otherwise instructed by the <i>Service Manager</i> .
Z3.3	Where, as a result, the <i>Contractor's</i> B-BBEE status has decreased since the Contract Date the <i>Employer</i> may either re-negotiate this contract or alternatively, terminate the <i>Contractor's</i> obligation to Provide the Service.
Z3.4	Failure by the <i>Contractor</i> to notify the <i>Employer</i> of a change in its B-BBEE status may constitute a reason for termination. If the <i>Employer</i> terminates in terms of this clause, the procedures on termination are P1, P2 and P4 as stated in clause 92, and the amount due is A1 and A3 as stated in clause 93.
Z4	Ethics
Z4.1	Any offer, payment, consideration, or benefit of any kind made by the <i>Contractor</i> , which constitutes or could be construed either directly or indirectly as an illegal or corrupt practice, as an inducement or reward for the award or in execution of this contract constitutes grounds for terminating the <i>Contractor's</i> obligation to Provide the Service or taking any other action as appropriate against the <i>Contractor</i> (including civil or criminal action).
Z4.2	<p>The <i>Employer</i> may terminate the <i>Contractor's</i> obligation to Provide the Service if the <i>Contractor</i> (or any member of the <i>Contractor</i> where the <i>Contractor</i> constitutes a joint venture, consortium or other unincorporated grouping of two or more persons or organisations) is found guilty by a competent court, administrative or regulatory body of participating in illegal or corrupt practices.</p> <p>Such practices include making of offers, payments, considerations, or benefits of any kind or otherwise, whether in connection with any procurement process or contract with the <i>Employer</i> or other people or organisations and including in circumstances where the <i>Contractor</i> or any such member is removed from the an approved vendor data base of the <i>Employer</i> as a consequence of such practice.</p>
Z4.3	Notwithstanding the provisions of core clause 90.2, the procedures on termination in terms of this clause are P1, P2 and P4 as stated in the core clause 92 and the amount due is A1 and A3 as stated in core clause 93.
Z5	Confidentiality

Z5.1	The <i>Contractor / Employer</i> does not disclose or make any information arising from or in connection with this contract available to Others. This undertaking does not, however, apply to information which at the time of disclosure or thereafter, without default on the part of the <i>Contractor / Employer</i> , enters the public domain or to information which was already in the possession of the <i>Contractor / Employer</i> at the time of disclosure (evidenced by written records in existence at that time). Should the <i>Contractor / Employer</i> disclose information to Others in terms of clause 25.1, the <i>Contractor / Employer</i> ensures that the provisions of this clause are complied with by the recipient.
Z5.2	If the <i>Contractor / Employer</i> is uncertain about whether any such information is confidential, it is to be regarded as such until notified otherwise by the Employer's <i>Service Manager</i> or <i>Contractor's Project Manager</i> .
Z5.3	In the event that the <i>Contractor / Employer</i> is, at any time, required by law to disclose any such information which is required to be kept confidential, the <i>Contractor / Employer</i> , to the extent permitted by law prior to disclosure, notifies the <i>Contractor / Employer</i> so that an appropriate protection order and/or any other action can be taken if possible, prior to any disclosure. In the event that such protective order is not, or cannot, be obtained, then the <i>Contractor / Employer</i> may disclose that portion of the information which it is required to be disclosed by law and uses reasonable efforts to obtain assurances that confidential treatment will be afforded to the information so disclosed.
Z5.4	The taking of images (whether photographs, video footage or otherwise) of the Affected Property or any portion thereof, in the course of Providing the Service and after the end of the <i>service period</i> , requires the prior written consent of the <i>Service Manager</i> . All rights in and to all such images, for the purpose of confidentiality, vests exclusively in the <i>Employer</i> . This will however not prevent the <i>Contractor</i> to use such images (whether photographs, video footage or otherwise) for the purpose of substantiation and reserve its rights under this contract accordingly.
Z5.5	The <i>Contractor / Employer</i> ensures that all his subcontractors abide by the undertakings in this clause.
Z6	Waiver and estoppel: Add to core clause 12.3:
Z6.1	Any extension, concession, waiver or relaxation of any action stated in this contract by the Parties, the <i>Service Manager</i> or the <i>Adjudicator</i> does not constitute a waiver of rights, and does not give rise to an estoppel unless the Parties agree otherwise and confirm such agreement in writing.
Z7	Health, safety and the environment: Add to core clause 27.4
Z7.1	<p>The <i>Contractor</i> undertakes to take all reasonable precautions to maintain the health and safety of persons in and about the execution of the <i>service</i>. Without limitation the <i>Contractor</i>:</p> <ul style="list-style-type: none"> • accepts that the <i>Employer</i> may appoint him as the "Principal Contractor" (as defined and provided for under the Construction Regulations 2014 (promulgated under the Occupational Health & Safety Act 85 of 1993) ("the Construction Regulations") for the Affected Property; • warrants that the total of the Prices as at the Contract Date includes a sufficient amount for proper compliance with the Construction Regulations, all applicable health & safety laws and regulations and the health and safety rules, guidelines and procedures provided for in this contract and generally for the proper maintenance of health & safety in and about the execution of the <i>service</i>; and • undertakes, in and about the execution of the <i>service</i>, to comply with the Construction Regulations and with all applicable health & safety laws and regulations and rules, guidelines and procedures otherwise provided for under this contract and ensures that his Subcontractors, employees and others under the <i>Contractor's</i> direction and control, likewise observe and comply with the foregoing. <p>The <i>Contractor</i>, in and about the execution of the <i>service</i>, complies with all applicable environmental laws and regulations and rules, guidelines and procedures otherwise provided</p>

	<p>for under this contract and ensures that his Subcontractors, employees and others under the <i>Contractor's</i> direction and control, likewise observe and comply with the foregoing.</p> <p>The Contractor limits its obligations to its scope of work as indicated in each individual Task Order Issued.</p>
Z8	Provision of a Tax Invoice and interest. Add to core clause 51
Z8.1	Within one week of receiving a payment certificate from the <i>Service Manager</i> in terms of core clause 51.1, the <i>Contractor</i> provides the <i>Employer</i> with a tax invoice in accordance with the <i>Employer's</i> procedures stated in the Service Information, showing the amount due for payment equal to that stated in the payment certificate.
Z8.2	If the <i>Contractor</i> does not provide a tax invoice in the form and by the time required by this contract, the time by when the <i>Employer</i> is to make a payment is extended by a period equal in time to the delayed submission of the correct tax invoice. Interest due by the <i>Employer</i> in terms of core clause 51.2 is then calculated from the delayed date by when payment is to be made.
Z8.3	The <i>Contractor</i> (if registered in South Africa in terms of the companies Act) is required to comply with the requirements of the Value Added Tax Act, no 89 of 1991 (as amended) and to include the <i>Employer's</i> VAT number 4330196330 on each invoice he submits for payment.
Z9	Notifying compensation events
Z9.1	<p>Delete the last paragraph of core clause 61.3 and replace with:</p> <p>If the <i>Contractor</i> does not notify a compensation event within eight weeks of becoming aware of the event, he is not entitled to a change in the Prices.</p>
Z10	Suspension of Task Order
Z10.1	<p>Suspension of Task Order</p> <p>In addition to X19, the following shall apply:</p> <p>Only the Employer is allowed to suspend or cancel a Task Order and the Contractor will have the opportunity to claim for work completed to date, on any specific Task Order, at the date of termination.</p> <p>Payment will only be made on actual/proven costs.</p>
Z11	Termination
Z11.1	The <i>Contractor</i> must take cognisance that the awarding of this contract is based on a month-to-month basis.
Z11.2	The <i>Employer</i> reserves the right to terminate this contract subject to 30 calendar day's written notice.
Z11.3	The <i>Contractor</i> must ensure that it has taken all the necessary steps to give effect to the Employers notice period without any liability to the Employer.
Z11.4	Over and above clause Z4, The Employer reserves the right to terminate this contract without Any recourse should the Contract have any legal actions, investigations or involved in any illegal or corrupt practices that may bring Eskom's reputation into disrepute. Further the Employer may terminate the Contractor's obligation to Provide the Service if a Committing Party has taken such Prohibited Action and the Contractor did not take timely and appropriate action to prevent or remedy the situation, without limiting any other rights or remedies the Employer has. It is not required that the Committing Party had to have been found guilty, in court or in any other similar process, of such Prohibited Action before the Employer can terminate the Contractor's obligation to Provide the Service for this reason.
Z12	Contractor's Obligation

Z12.1	The <i>Contractor's</i> obligation is to use skill and care normally used by professionals providing the services as detailed in the Works Information.
Z13	Intellectual Property
Z13.1	<p>All Designs, drawings, specifications, instructions, manuals and other documents created, produced by or on behalf of the <i>Contractor</i> for the purposes of carrying out the Service (collectively, the "<i>Contractor's</i> Copyright Documents") and copyright therein and all intellectual property rights relating thereto, are, will be, and will remain the property of the <i>Contractor</i>. The <i>Contractor</i> hereby grants to the <i>Employer</i> an irrevocable, royalty-free, non-exclusive and perpetual licence to use those of the <i>Contractor's</i> Copyright Documents supplied to the <i>Employer</i> under the Contract for the purpose of operating, maintaining, adjusting and repairing the Service.</p> <p>The <i>Contractor</i> shall not under any circumstances be obliged to divulge or supply any proprietary manufacturing documents, and design drawings.</p> <p>Patents and Trademarks</p> <p>In the event of any claims being made or actions brought against the <i>Employer</i> on the ground that the Service, Plant and Materials or the design information provided by the <i>Contractor</i> to him hereunder or the use of same as specified hereunder constitutes an infringement of any patent, trademark or copyright of the Republic of South Africa, the <i>Contractor</i> shall be promptly notified thereof and shall at its own expense conduct all negotiations for the settlement of the claim and litigation that may arise from such alleged infringement. The <i>Employer</i> shall not, before the <i>Contractor</i> shall have failed to take over the conduct of the negotiation or litigation, make any admission which might be prejudicial thereto. The <i>Employer</i> shall at the request of the <i>Contractor</i> afford him all technical assistance that the <i>Employer</i> is able to provide for the purpose of contesting any such claim or action</p> <p>Should it be held in any such action that any such protected rights has been infringed, the <i>Contractor</i>, has the choice to replace or continue with the affected design at its own expense and in consultation with the <i>Employer</i>, shall either: procure for <i>Employer</i> the right to continue to use the affected item or design, or replace the said affected item or design with a non-infringing item or design of equivalent quality, or modify such affected item or design so as to make it non-infringing without affecting the quality.</p> <p>Notwithstanding anything contained in this Contract, the foregoing sets forth the entire responsibility of <i>Contractor</i> with respect to claims relating to infringement and shall not apply in the case where the infringement is attributable to <i>Contractor</i> for which <i>Employer</i> shall protect <i>Contractor</i> to the same extent <i>Contractor</i> has agreed to protect the <i>Employer</i> herein.</p>
Z14	Asbestos
	<p>Prior to the commencement of the services on site, a free measurement routine in conformity with TRGS 519 (German Technical Rules for Hazardous Substances) must be carried out, with the maximum permissible limit value being 500 fibres per m³, with an upper confidence level of the poison distribution lower than 1000 F/m³. The measurement and evaluation must be conducted according to VDI 3492 or Acceptable SABS approved standards. Results of the measurement have to be presented to the <i>Contractor</i>. The costs of the action incurred for this purpose, including any requisite follow-up measurements required by the <i>Contractor</i>, shall be borne by the <i>Employer</i>.</p> <p>It is agreed between Parties that in case the measurements performed by the <i>Employer</i> show unsafe levels with regard to the above, asbestos shall be removed and disposed of by the <i>Employer</i> involving a specialist company before the <i>Contractor</i> or its contracting party start the Services.</p> <p>The services on site shall then only start when the asbestos measurements showing safe</p>

	<p>levels have been presented to the <i>Contractor</i>.</p> <p>Should asbestos be detected during the execution of the services, the <i>Contractor's</i> personnel will stop the work and leave the contaminated area forthwith and the <i>Employer</i> arranges for the area to be cleaned and decontaminated as per the above standards. The <i>Contractor</i> will be compensated for the waiting period according to the valid hourly rates and for all further cost incurred as a result of service interruption due to asbestos.</p> <p>The services on site shall be resumed, when the asbestos measurements showing safe levels as defined above have been presented to the <i>Contractor</i>.</p> <p>The contractually agreed dates for services at the site including completion date shall be adjusted accordingly.</p> <p>Prior to the commencement of the services on site, a free measurement routine in conformity with TRGS 519 (German Technical Rules for Hazardous Substances) must be carried out, with the maximum permissible limit value being 500 fibres per m³, with an upper confidence level of the poison distribution lower than 1000 F/m³. The measurement and evaluation must be conducted according to VDI 3492 or Acceptable SABS approved standards. Results of the measurement have to be presented to the <i>Contractor</i>. Z15	<p>Accommodation</p> <p>The <i>Contractor</i> will provide proof of payment for accommodation cost for each task Order issued.</p>
Z16	<p>Working time</p> <p>Standard normal time work schedule will be 10 hours per day, 6 days per week for maintenance and as per outage requirements for projects.</p> <p>The working hours related to Services (Maintenance) will be in accordance with the scheduled working hours, which are averaged at 40 hours per week. This could vary between 40 and 60 hours depending on site requirements.</p> <p>Overtime may not exceed 20 hours per week subject to Department of Labour dispensation.</p>
Z17	<p>Medical Insurance, Valid Work Permits, Driver's License and PPE</p>

	The <i>Contractor</i> will ensure that all deployed employees, on this Contract, have full Medical Insurance, Valid Work Permits, a valid Driver's License (where relevant) and full required Personal Protective Equipment as per site requirements.
Z18	Nuclear Liability
	<p><i>Employer</i> shall obtain and maintain, without cost to <i>Contractor</i>, nuclear liability insurance in the amount and scope of coverage required by the South African National Nuclear Regulator Act (Act No. 47 of 1999), and the rules and regulations promulgated thereunder, or in the amount of US\$450 million (or South African rand equivalent amount), whichever amount is more. Such insurance shall be in effect prior to the performance of the services and shall remain in effect for the duration of the Contract and until the Plant has been removed from supervision under laws on atomic energy by the competent South African regulatory authority. Neither the insured nor the insurers shall have any right of subrogation, recourse or otherwise against <i>Contractor</i> or its suppliers. In addition, <i>Employer</i> shall obtain and maintain, without cost to <i>Contractor</i>, insurance covering all damages due to acts of terrorism in an amount not less than US\$47.3 million. Upon issuance of a task order to <i>Contractor</i>, <i>Employer</i> shall provide proof of such insurance as required in this Paragraph A, and <i>Contractor</i> has the right to reject <i>Employer's</i> task order without liability of any kind, if the insurance does not meet the conditions set forth herein.</p>
	<p>B. LIABILITY PROTECTION</p> <p>1. This sale of products and/or services and any delivery or performance obligations pursuant to this sale are conditional upon there being in full force and effect in the Republic of South Africa a system of protection for nuclear liability to third parties under the South African National Nuclear Regulatory Act (Act No. 47 of 1999), and that such system of protection for nuclear liability will continue in effect at all times until decommissioning of the Plant and until the Plant has been removed from supervision under laws on atomic energy by the competent South African regulatory authority.</p> <p>2. In the event that the system of protection for nuclear liability referred to in Paragraph B.1 above is repealed, expires or changed in a manner that reduces the level of protection afforded <i>Contractor</i> or its suppliers, <i>Employer</i> will establish, without cost to <i>Contractor</i>, until the decommissioning of the Plant and until the Plant has been removed from supervision under laws on atomic energy by the competent South African regulatory authority, a substitute system of protection against such liability which will, in its overall effect, provide protection equivalent to the protection afforded <i>Contractor</i> and its suppliers under the original system and this Appendix A. <i>Employer</i> shall promptly advise</p>
	DEFINITIONS AND OTHER PROVISIONS
	<p>As used in this Appendix A, the following terms (whether or not capitalized) shall have the meanings set forth below:</p> <p>1. "Liability for Nuclear Damage" means any liability for damage of any kind, whether based on contract, warranty, indemnity, tort (including negligence of whatever degree), strict liability or otherwise, which in whole or in part is caused by, arises out of, results from or is in any way related, directly or indirectly, to either the radioactive, toxic, explosive or other hazardous properties of any nuclear or radioactive material, including amounts paid in settlements of claims or litigation, amounts paid to satisfy judgments or awards, interest, legal costs (including costs in initiating, prosecuting, investigating, settling or defending claims or suits), and fees of counsel The foregoing includes, but is not limited to liability for, loss of, or damage to, or loss of use of, any real, personal or mixed property, fixtures or equipment located at the <i>Employer's</i> Plant and whether owned by the <i>Employer</i> or any third party) or elsewhere or in the course of transportation to or from the Plant including handling or storage incidental thereto (including any equipment supplied by the Seller, any nuclear material, and any means of transport), injury, sickness, disease, disability or</p>

	<p>death, loss of actual or anticipated profits, loss by reason of Plant shutdown, nonoperation or increased expense of manufacturing or operation, service interruptions, claims of the <i>Employer's</i> customers, subcontractors or suppliers, governmental fines or penalties against the <i>Employer</i>, loss of use of capital or revenue, cost of money, radioactive contamination, measures of reinstatement of impaired environment, worker claims, preventive measures, replacement power costs, acts of terrorism, rumour damage, interest, legal costs (including costs in initiating, prosecuting, investigating, settling or defending claims or suits), and fees of counsel.</p> <p>2. "Consultant" means any person, firm, corporation, vendor, subcontractor or, and/or supplier, regardless of tier, and the parent company or companies, affiliates, subsidiaries and/or related companies/entities, and the directors, officers, employees and agents of each such entity, which has furnished or is furnishing to the Agreement Company or Owner, as per the signatories, directly, any material, equipment, services, information, or any other thing in connection with the products and services.</p> <p>3. "Plant" means the Koeberg Nuclear Power Station near Cape Town, Republic of South Africa, and includes all of the nuclear reactors and ancillary installations, as well as all real, personal and mixed property, fixtures, equipment, activities and operations at such location.</p> <p>4. "Operator" means the organization designated by the competent South African Government regulatory authority as the operator of the Plant, which cannot be the Seller.</p> <p>5. "<i>Employer</i>" means Rotek Industries, acting on behalf of the designated Operator and owner of the Plant.</p> <p>6. Each Party hereby acknowledges and agrees that the provisions of this sui generis Appendix A are fair and reasonable having regard to the circumstances as the date hereof.</p> <p>7. This Appendix A is intended to provide the Company and its Suppliers with protection in addition to liability protection provided by the South African National Nuclear Regulatory Act (Act No. 47 of 1999).</p> <p>8. The provisions of this Appendix A shall be severable. Should any part of this Appendix A be rendered or declared invalid by a court of competent jurisdiction, such invalidation of such part or portion of this Appendix A should not invalidate the remaining portions thereof, and they shall remain in full force and effect. The provisions of this Appendix A shall be liberally constructed to effectuate its purposes..</p>
Z19	Transport Arrangements
	The <i>Contractor</i> shall ensure that resources are transported to site as per working times stipulated in clause Z16, and make provision for standby requirements after hours
Z20	Documentation required
	Proof of experience and qualifications, as per the prequalification requirements work instruction 240-99475034, of the proposed <i>Contractor's</i> staff together with certificates of medical fitness to be furnished to the <i>Employer</i> before task order signature
Z21	Estimated Price
	The estimated price must be based on the scope of work as defined in Part 3 of this contract.

C1.2 Contract Data

Part two - Data provided by the *Contractor*

Clause	Statement	Data
10.1	The <i>Contractor</i> is Address Tel No. Fax No.	
11.2(8)	The <i>direct fee percentage</i> is The <i>subcontracted fee percentage</i> is	Not applicable. Not applicable.
11.2(14)	The following matters will be included in the Risk Register	Not applicable.
11.2(15)	The Service Information for the <i>Contractor's</i> plan is in:	Refer to each individual Task Order.
21.1	The plan identified in the Contract Data is contained in:	Refer to each individual Task Order.
24.1	The key people are: 1 Name: Job: Responsibilities:	
	2 Name: Job Responsibilities:	
A	Priced contract with price list	
11.2(12)	The <i>price list</i> is in	C2 Price Data
11.2(19)	The tendered total of the Prices is	as per Task Order

Part 2: Pricing Data**TSC3 Option A**

Document reference	Title	No of pages
C2.1	Pricing assumptions: Option A	
C2.2	The <i>price list</i>	

C2.1 Pricing assumptions: Option A

How work is priced and assessed for payment

Clause 11 in NEC3 Term Service Contract (TSC3) core clauses and Option A states:

Identified and defined terms	11 11.2	<p>(12) The Price List is the <i>price list</i> unless later changed in accordance with this contract.</p> <p>(17) The Price for Services Provided to Date is the total of</p> <ul style="list-style-type: none"> the Price for each lump sum item in the Price List which the <i>Contractor</i> has completed and where a quantity is stated for an item in the Price List, an amount calculated by multiplying the quantity which the <i>Contractor</i> has completed by the rate. <p>(19) The Prices are the amounts stated in the Price column of the Price List. Where a quantity is stated for an item in the Price List, the Price is calculated by multiplying the quantity by the rate.</p>
-------------------------------------	------------	--

This confirms that Option A is a priced contract where the Prices are derived from a list of items of service which can be priced as lump sums or as expected quantities of service multiplied by a rate or a mix of both.

Function of the Price List

Clause 54.1 in Option A states: "Information in the Price List is not Service Information". This confirms that instructions to do work or how it is to be done are not included in the Price List but in the Service Information. This is further confirmed by Clause 20.1 which states, "The *Contractor* Provides the Service in accordance with the Service Information". Hence the *Contractor* does **not** Provide the Service in accordance with the Price List. The Price List is only a pricing document.

Link to the *Contractor's* plan

Clause 21.4 states "The *Contractor* provides information which shows how each item description on the Price List relates to the operations on each plan which he submits for acceptance". Hence when compiling the *price list*, the tendering contractor needs to develop his first clause 21.2 plan in such a way that operations shown on it can be priced in the *price list* and result in a satisfactory cash flow in terms of clause 11.2(17).

Preparing the *price list*

Before preparing the *price list*, both the *Employer* and tendering contractors should read the TSC3 Guidance Notes pages 14 and 15. In an Option A contract, either Party may have entered items into the *price list* either as a process of offer and acceptance (tendering) or by negotiation depending on the nature of the *service* to be provided. Alternatively the *Employer*, in his Instructions to Tenderers or in a Tender Schedule, may have listed some items that he requires the *Contractor* to include in the *price list* to be prepared and priced by him.

It is assumed that in preparing or finalising the *price list* the *Contractor*:

- Has taken account of the guidance given in the TSC3 Guidance Notes relevant to Option A;
- Understands the function of the Price List and how work is priced and paid for;
- Is aware of the need to link operations shown in his plan to items shown in the Price List;
- Has listed and priced items in the *price list* which are inclusive of everything necessary and incidental to Providing the Service in accordance with the Service Information, as it was at the time of tender, as well as

correct any Defects not caused by an *Employer's* risk;

- Has priced work he decides not to show as a separate item within the Prices or rates of other listed items in order to fulfil the obligation to complete the *service* for the tendered total of the Prices.
- Understands there is no adjustment to items priced as lump sums if the amount, or quantity, of work within that item later turns out to be different to that which the *Contractor* estimated at time of tender. The only basis for a change to the (lump sum) Prices is as a result of a compensation event.

Format of the *price list*

(From the example given in an Appendix within the TSC3 Guidance Notes)

Entries in the first four columns in the *price list* in section C2.2 are made either by the *Employer* or the tendering contractor.

If the *Contractor* is to be paid an amount for the item which is not adjusted if the quantity of work in the item changes, the tendering contractor enters the amount in the Price column only, the Unit, Expected Quantity and Rate columns being left blank.

If the *Contractor* is to be paid an amount for an item of work which is the rate for the work multiplied by the quantity completed, the tendering contractor enters the rate which is then multiplied by the Expected Quantity to produce the Price, which is also entered.

If the *Contractor* is to be paid a Price for an item proportional to the length of time for which a service is provided, a unit of time is stated in the Unit column and the expected length of time (as a quantity of the stated units of time) is stated in the Expected Quantity column.

C2.2 the *price list*

C2.3 the SOW

Scope of Work

1 Objectives

The objective of this document is to outline bearing refurbishment (remetalling) services required by ERI TGS to service all Eskom Power Stations. The contract seeks to ensure that the proposed services required are executed in a planned and structured manner, and that all quality requirements during inspection, refurbishment and final testing are met. This contract should ensure that the project is completed within the specified timeframe, consumables are readily available, and the refurbishment scope is executed efficiently. All scopes need to be executed in a way that supports the project duration.

2 Scope of services

The scope of responsibility includes the complete or partial refurbishment of white metal bearings. The refurbishment process primarily includes as received inspections, removal of the old white metal, remetalling, final machining and conducting inspections before dispatch of the bearing.

3 General Requirements

3.1 Quality

- Inspections are to be carried out in accordance with the check sheets and quality plan provided by the service provider in line with the Eskom requirements, which should be compiled from the Scope of Work (SOW) and approved by Eskom Rotek Industries (ERI) Turbo Gen Services (TGS) Engineering. The document must contain all the Product Quality Plans (PQP's) of work that will be done. Inspection values to be recorded on the check sheets. All abnormalities are to be recorded and reported via Technical Notifications (TNs).
- All the work carried out will be in line with the applicable Eskom, ERI or OEM standards. Where nothing exists, IEC, SABS standards and good engineering practice will be followed. This includes but is not limited to the covering of all openings and the use of approved chemicals.
- NDT to comply with ERI standards for Penetrant or liquid penetrant testing (PT) and Ultrasonic Testing (UT)
- All quality documents, procedures, check-sheets and PQP to be supplied by the service provider providing the service and approved by ERI TGS Engineering.

3.2 Experience of staff

- The service requested will determine the skill levels and number of specific skills that will be required to execute the service.
- The service provider will work together with the ERI TGS personnel to ensure the KPIs are achieved.
- All staff shall be adequately qualified and competent at performing all work within safe and correct technical specifications.

3.3 Spares and Consumables

- All spares that would have been pre-identified in the pre-planning of the project will be sourced and supplied by the respective clients to ERI.
- All consumables that would have been pre-identified in the pre-planning of the project will be sourced and supplied by the service provider.
- The transport of any spares and consumables remains the responsibility of the contractor.

3.4 Documentation

- A full-service report will be compiled to ERI TGS standard and provided to ERI TGS on dispatch of the bearing. The report will contain a high-level description of the work performed during the project. It will contain the approved PQP of all work and all related check sheets including all technical notifications.
- PQP to be compiled and presented to Engineering (ERI TGS) for approval before the start of the project.

4 Scope of Work (SOW)

4.1 Pre – Project Activities

- Upon receipt of the scope of work, it is the service provider's responsibility to ensure that the scope is clear and executable within the specified durations. The ERI TGS project management will share durations of activities expected to support whole project durations.
- Identify critical spares requirements and incorporate into the scope of works.
- Verify scope execution methods against ERI prescribed methods for inclusion in the scope of work.
- Advice and guide on best practices to refurbish bearings to meet the project deadlines.
- Develop and review project plans for logics and detail as per scope of work for approval

4.2 Service Provider Service

4.2.1 Bearing Refurbishment

- Perform as received inspection of bearings (visual and dimensional)
- Remove all white material and inspect the shell
- Blast clean the bearing
- Inspection of dowels and fasteners.
- Apply Tin layer on the bearing
- White metal the bearing
- Butt, peen, scrape and rough machine the bearing
- Deburr and clean
- Record bearing half joint feeler gaps, submit this record with refurbishment data package.
- Perform bearing half joint blue check and correct by hand scraping or machining if required. **NOTE: Consult ERI Engineer if bearing half joint machining is required.**
- Record bearing half joint feeler gaps after machining the half joint minimum to clean, submit this record with refurbishment data package, **if required**
- Perform bearing half joint feeler gaps after machining the half joint minimum to clean, **if required.**
- Perform NDT (UT and PT) and submit report to engineering (third party to have required accreditation and accepted by Eskom Rotek Industries / Eskom)
- Dimensional inspection after rough machining
- Butt, peen and scrape the bearing ensuring critical dimensions are maintained
- Supply or manufacture dowels, bolts and nuts when instructed by ERI when required
- Engineering to issue final machining sizes
- Final machine the bearing to specified size
- Reintroduce all critical features (oil ways, jacking oil ports, thermocouple holes etc.)
- Dimensional inspect after final machining
- Perform NDT (UT and PT) after final machining and submit report to engineering
- Deburr and clean
- Package bearing to avoid damages on white metal circumference, butt faces and bearing body
- Verify all documentation for dispatch

NB: Final machining of specific bearings to be done in conjunction with the final machining instructions from ERI which must include reference to the bearing setup and where the specific housings in which the shells must be installed before machining.

4.2.2 Instructions, Rule, Roles and Responsibilities to be complied with by the Service Provider

- Compile and share program with ERI Project Manager before commencement of work
- Share third party certification for NDT and any quality related work as required by ERI standards
- Adhere to workshop ERI Life Saving rules and observe safety habits attitude and compliance there of
- Seek advice if required before continuing with an activity which needs clarification
- Ensure that plant safety regulations, quality standards & procedures, work instructions are always adhered to.

4.2.3 Comply with Safety Health Environment and Quality Requirements

- Comply with the Occupational Health and Safety Act and ERI SHE System requirements
- Comply with the Eskom Plant Safety Regulations and Life Savings Rules
- Control and maintenance of ISO Quality system in accordance with the Business Management System in relation to this Job Function.
- Comply with policies, procedures and instructions.

5 Minimum qualification requirements

Resources assigned to the project are to comply with the minimum qualification requirements below:

Casting Artisan	<ul style="list-style-type: none"> • At least 5 years relevant experience • Must be fully literate in English, in reading, writing and speaking, and able to communicate in English. • Strong & sound relevant trade skills with the ability to utilize and read measuring and test instruments within the tolerance requirements • Conversant with Quality and Safety system requirements • The ability to function effectively in a team environment
Dye Penetrant Technician	<ul style="list-style-type: none"> • At least 5 years relevant experience • Must be fully literate in English, in reading, writing and speaking, and able to communicate in English. • Strong & sound relevant trade skills with the ability to utilize and read measuring and test instruments within the tolerance requirements • Conversant with NDT requirements • The ability to function effectively in a team environment
Mechanical Engineer	<ul style="list-style-type: none"> • 5 years relevant experience • Must be fully literate in English, in reading, writing and speaking, with technical report writing skills and able to communicate in English. • Above average interpersonal, communication and leadership skills • Strong customer orientation • Conversant with ISO 9002 and Occupational Health and Safety Act • Computer skills, in MS Office, Windows, and MS Projects • Diploma, or Degree in the relevant Engineering field
Machinist	<ul style="list-style-type: none"> • At least 5 years relevant experience • Must be fully literate in English, in reading, writing and speaking, and able to communicate in English. • Strong & sound relevant trade skills with the ability to utilize and read measuring and test instruments within the tolerance requirements • Conversant with Quality and Safety system requirements • The ability to function effectively in a team environment
NDT Ultrasonic Technician	<ul style="list-style-type: none"> • At least 5 years relevant experience • Must be fully literate in English, in reading, writing and speaking, and able to communicate in English. • Strong & sound relevant trade skills with the ability to utilize and read measuring and test instruments within the tolerance requirements • Conversant with NDT requirements • The ability to function effectively in a team environment
NDT level III	<ul style="list-style-type: none"> • 5 Years of NDT related experience with strong interpersonal and communication skills • Set-up and verify equipment settings

	<ul style="list-style-type: none"> • Translate NDT codes, standards, specifications, and procedures into NDT instruction adapted to the actual working condition • Prepare NDT Work Instruction / Technique sheets • Perform and supervise inspections.3 • Evaluate and interpret NDT results and provide credible results. • Select the NDT Technique for the test method to be used • Train and develop and NDT Technicians
--	---

6 SHEQ requirements

All service providers are expected to comply with, but not limited to the following:

- Compliance with the Occupational Health and Safety Act 85 of 1993 is compulsory.
- Adherence to Quality Management System Policies, Procedures and related requirements of ISO 9001.
- Adherence to Occupational Health and Safety Policies, Procedures and related requirements of the OHSAS 18001.
- Adherence to environmental aspects, related impacts and legal requirements associated with work activities in accordance with ISO 14001.
- Adherence to Life Saving Rules.
- Only authorized documents and processes are to be used in the execution of duties.
- Continuously seek methods for improvements from a process, quality and safety perspective.
- Obey all the lawful instructions.
- Familiarize with:
 - ✓The applicable work instructions and procedures in place.
 - ✓Safe working conditions and procedures.
 - ✓All legal and contractual requirements.
 - ✓Discipline and integrity.
- Compliance with all ERI Work Instructions, processes, procedures, and standards
- Adherence to ERI's disciplinary code or practice.
- Set examples for co-workers and others.
- Participate in Risk Assessments.
- Responsible for own safety.
- Responsible for Personal Protective Equipment issued.
- Execute duties promptly and safely.
- Safeguard tools and safety equipment issued.
- Keep good relationship with all personnel.
- Compile a HIRA for each activity that needs to be performed.
- Ensure the activities are carried out following a works instructions and procedure.
- Adherent to clean condition policy where required.

All activities to be carried out as per the documented processes and comply with the requirements of ISO and OHSAS certification

- Service provider to comply with Eskom PPE (Personal Protective Equipment) policy with regards to issuing of PPE to resources
- Proper use of PPE to be followed
- Ensure that tools and equipment are stored correctly in a safe place.

7 Key deliverables

The following deliverables are to be met by the service provider:

During the project duration:

- Program and contract agreement detailing start and end date of project signed by both parties
- Daily updated program
- Compliance with all ERI work instructions, processes, procedures, and standards
- No SHEQ incidents
- Project milestones are to be achieved on time, or earlier

8 Procedure adherence requirements

The ERI TGS Quality Management System consists of various procedures and processes that are utilized to manage and control the level of quality of maintenance activities during an outage to an acceptable standard. These procedures and processes are employed during the planning and execution of maintenance activities with a focus on meeting the customers' requirements and enhancing their satisfaction. These procedures should be adhered to by the service provider and will be made available on request by the service provider.

- Quality Control
- Technical Notification Work Instruction (240-94067868)
- Latest revision of ERI PT (240 – 136514971 R3) and UT (240 – 136619126) NDT criteria
- Latest revision of acceptance criteria for white metal bearings (TT-T-46)

9 Key Performance Indicators

The performance of the contractor will be evaluated on the KPIs in the table below:

Objective	Key Performance Indicator	Measure	Unit of Measure	Source of Evidence
Safety Sustainability	LTI Free days	LTI Free days	Days	To be provided by the supplier
Due Date Performance (DDP)	Due Date Performance	Average days as per the signed refurbishment scope of work program. Days earlier reward: <i>Supplier still charges full contracted value for earlier finish</i> Days late penalty: <i>2% of payable on late delivery per day</i>	Days	To be provided by the supplier

Reduce number of rework incidents	Number of Rework Incidents	Number of Rework Incidents Rework at supplier cost including spares and consumables and recovery plan if there are contractual dates impacts (penalty will be as per DDP)	Number	To be provided by the supplier
No of Legal & Environmental Contraventions	No of Legal & Environmental Contraventions	Number of contraventions	Number	To be provided by the supplier

- The service provider will be responsible for the successful completion of the scope
- Any defects that are noted after the scope execution will be corrected by the service provider at their own cost.

C3.1: EMPLOYER'S SERVICE INFORMATION

Management meetings

The *conditions of contract* (e.g. Clause 16.2) and other sections of the Service Information (e.g. safety risk management) may require that a meeting shall be held. However the intention of all NEC contracts is that the Parties and their agents use the techniques of partnering to manage the contract by holding meetings designed to proactively and jointly manage the administration of the contract with the objective of minimising the adverse effects of risks and surprises for both Parties.

Depending on the size and complexity of the *service*, it is probably beneficial for the *Service Manager* to hold a weekly risk register meeting (Clause 16.2). This could be used to discuss safety, compensation events, subcontracting, overall co-ordination and other matters of a general nature. Separate meetings for specialist activities such as planning and activities of a technical nature may also be warranted.

Describe here the general meetings and their purpose. Provide particulars of approximate times, days, location, and attendance requirements, stipulating that attendees shall have the necessary delegated authority to make decisions in respect of matters discussed at such meetings.

The following text could be used as a model for this section:

Regular meetings of a general nature may be convened and chaired by the *Supply Manager* as follows:

Title and purpose	Approximate time & interval	Location	Attendance by:
Risk register and compensation events	Weekly on _____ at _____		
Overall contract progress and feedback	Monthly on _____ at _____		<i>Employer, Contractor and _____</i>

Meetings of a specialist nature may be convened as specified elsewhere in this Service Information or if not so specified by persons and at times and locations to suit the Parties, the nature and the progress of the *service*. Records of these meetings shall be submitted to the *Service Manager* by the person convening the meeting within five days of the meeting.

All meetings shall be recorded using minutes or a register prepared and circulated by the person who convened the meeting. Such minutes or register shall not be used for the purpose of confirming actions or instructions under the contract as these shall be done separately by the person identified in the *conditions of contract* to carry out such actions or instructions.

Invoicing and payment

The Z clauses make reference to invoicing procedures stated here in this Service Information. Also include a list of information which is to be shown on an invoice.

Within one week of receiving a payment certificate from the *Service Manager* in terms of core clause 51.1, the *Contractor* provides the *Employer* with a tax invoice showing the amount due for payment equal to that stated in the *Service Manager's* payment certificate.

The *Contractor* shall address the tax invoice to
 Eskom Rotek Industries
 Accounts Payable Department
 Lower Germiston Road
 Rosherville

and include on each invoice the following information:

Name and address of the *Contractor* and the *Service Manager*.

The contract number and title;

Contractor's VAT registration number;

The *Employer's* VAT registration number 4740101508;

Description of service provided for each item invoiced based on the Price List;

Total amount invoiced excluding VAT, the VAT and the invoiced amount including VAT;

(add other as required)

Add procedures for invoice submission and payment (e. g. electronic payment instructions)

Insurance provided by the *Employer*

First read TSC3 Core Clause 86.1 and then add anything necessary for the management of insurance related issues such as a cross reference to where procedures for making claims can be found. Also provide contact details for persons capable of being able to answer any insurance related queries the *Contractor* may have, as well as to whom the information required by Marine Insurance (if any) may be addressed.

Health and safety, the environment and quality assurance

Health and safety risk management

In addition to the requirements of the laws governing health and safety, Eskom may have some additional requirements particular to the *service* and the Affected Property for this contract. The text below provides for these being attached as an Annexure to this Service Information. PLEASE ALSO READ CORE CLAUSE 27.4 TOGETHER WITH Z7 IN THE ADDITIONAL CONDITIONS OF CONTRACT TO MAKE SURE THAT WHATEVER IS INCLUDED IN THE ANNEXURE FOLLOWS ON FROM THOSE CLAUSES.

The Divisional/Regional Safety Risk Manager or his representative having jurisdiction over the *service* must provide the relevant safety, health and environmental (SHE) criteria for incorporation into this Service Information. The SHE specification / scope must be signed off by the Divisional/Regional Safety Risk Manager or his representative confirming that the applicable safety criteria have been taken into account.

The Divisional Safety Risk Managers who will be responsible for the allocation of resources to assist P&SCM with the above processes are as follows:

- Generation: Roley McIntyre
- Transmission: Tony Patterson
- Distribution: Alex Stramrood
- Enterprises: Jace Naidoo
- Corporate: Kerseri Pather

The *Contractor* shall comply with the health and safety requirements contained in Service Information.

Procurement

There is a cross reference from the core clause 11.2(6) definition of Disallowed Cost to the Service Information regarding procurement procedures. This part of the Service Information MUST include any such procedures to be able to administer Disallowed Cost.

Equipment provided by the *Employer*

Some Employer's obligations are stated in the Scope of Work above and these will be detailed in the Plan.

Hook ups to existing works
