- Z14.6 The *Consultant* continues to Provide the Services, without additional control measures presented, on presentation of Safe Levels. The contractually agreed dates to Provide the Services, including the Completion Date, are adjusted accordingly. PART 2: PRICING DATA

PSC3 Option G

Document reference	Title	No of pages
C2.1	Pricing assumptions : Option G	[•]
C2.2	<i>Staff rates, expenses and the task schedule.</i>	[•]

C2.1 Pricing assumptions: Option G

1. How work is priced and assessed for payment

From Option G: Term contract

Identified and defined terms	11 11.2	(17) The Price for Services Provided to Date is, for each Task, the total of <ul style="list-style-type: none">the Time Charge for work which has been completed on time based items on the Task Schedule anda proportion of the lump sum price for each other item on the Task Schedule which is the proportion of work completed on that item.
		(20) The Prices are <ul style="list-style-type: none">the Time Charge for items described as time based on the Task Schedule andthe lump sum price in the Task Schedule for each other item.

From the Core Clauses:

Identified and defined terms	11.2	(13) The Time Charge is the sum of the products of each of the <i>staff rates</i> multiplied by the total staff time appropriate to that rate properly spent on work in this contract.
------------------------------	------	--

and

Assessing the amount due	50.3	The amount due is <ul style="list-style-type: none">the Price for Services Provided to Date,the amount of the <i>expenses</i> properly spent by the <i>Consultant</i> in Providing the Services andother amounts to be paid to the <i>Consultant</i> less amounts to be paid by or retained from the <i>Consultant</i>. <p>Any tax which the law requires the <i>Employer</i> to pay to the <i>Consultant</i> is included in the amount due.</p>
--------------------------	------	--

In effect Option G is a cost reimbursable form of contract with work ordered by the *Employer* on a Task by Task basis using the Task Schedule to compile the cost of carrying out a Task.

Expenses are calculated separately and added to the amount due for the services provided.

2. Staff rates

Tendering consultants are advised to consult the NEC3 Professional Services Contract Guidance Notes before entering *staff rates* into Contract Data, or in section C2.2 which follows.

This is because *staff rates* can be established in one of three ways:

- rates for named staff,
- rates for categories of staff, or

- rates related to salaries paid to staff.

Rate adjustment for inflation, if necessary, can be based either on actual salary adjustments or by using Option X1: Price adjustment for inflation. See pages 13 and 14 of the PSC3 Guidance Notes.

Expenses associated with employing a staff member in Providing the Services can be listed separately either by the *Employer* in Contract Data provided by the *Employer* or by the *Consultant* in Contract Data provided by the *Consultant*.

As only the *expenses* listed may be claimed by the *Consultant*, all other cost to the *Consultant* associated with Providing the Services must be included within the *staff rates*.

Rate adjustment for inflation of *expenses* is explained on page 15 of the PSC3 Guidance Notes.

3. The function of the Task Schedule

The Task Schedule may include items of work to be paid for on a rate (Time Charge) or on a lump sum price for the item. Any work ordered during the term of the contract – i. e. before the Completion Date – for which there is no priced item in the Task Schedule is priced using the compensation event procedure and the resulting Price is added into the Price List.

The *task schedule* is prepared by the *Employer* for the *Consultant* to price, or may be prepared jointly with the *Consultant*. It is typically priced in two parts as items of work to be carried out on a time basis and lump sum prices for other items of work. The task schedule must be as complete as possible and fully representative of all the work and *services* which the *Employer* may require the *Consultant* to carry out. The only unknown is when the work is to be carried out; the Task Order will be used to instruct when work to be done.

C2.2 Staff rates & the task schedule

This section can be used when the *staff rates* and *expenses* are considerable in number and more conveniently located here than in the Contract Data. Entries in the Contract Data should refer to this section of Part 2.

State whether the *staff rates* and *expenses* exclude or include VAT.

1. The *staff rates* are:

[illegible]

2. The task schedule

The following format could be used:

No.	Items of work to be carried out on a time basis

[illegible]

PART 3: SCOPE OF WORK

Document reference	Title	No of pages
C3.1	This cover page <i>Employer's Scope</i>	1
	Total number of pages	

C3.1: EMPLOYER'S SCOPE

Specification and description of the *services*

The content of this section is the meat of the scope of work and will depend on the nature of the *services* required. The *Consultant* may be appointed for a wide range of duties. The range is almost limitless but would typically include:

- Provide services of an advisory or specialist nature.
- Conduct training on an ad hoc basis.
- Manage a service or facility on behalf of the *Employer*.
- Develop a software application and then implement it throughout the *Employer's* organisation.
- Act as the architect for the design and supervision of a new building.
- Act as the engineer for the design of a new project or structure.
- Act as a cost engineer or quantity surveyor on a project.
- Act as the *Project Manager* in terms of an ECC contract or as a project manager for a total project.
- Act as the *Supervisor* in terms of an ECC contract.

Professional services contracts are by nature specialised and it would be impractical to prescribe formats here to cover such a wide range of duties as those listed above.

For engineering and construction services, document compilers are advised to consult a paper issued by CIDB entitled, "*A generic scope of work for services relating to construction works. 18 October 2006*". This paper identifies a generic format as well as giving guideline scope of services for the appointment of members of the various statutory councils operating in South Africa such as ECSA, SACQSP, SACAP and SACPCMP.

The Construction Industry Council (UK) has developed a generic approach suitable for the appointment of most professional disciplines in the engineering and construction sector. This requires the Scope to be compiled for stages of the services associated with a project and is described on pages 1 and 3 of the above referenced paper. If this approach were to be followed, this section could be developed as follows:

Stage 1 Preparation

Develop a strategic brief which defines project objectives, business need, acceptance criteria and the *Employer's* priorities and aspirations:

Stage 2 Concept

Development of initial design which establishes the detailed brief, scope, scale, form and budget for the project culminating in the Concept Report

Stage 3: Design development

Detailed development of approved concept to establish detailed form, character, function and cost plan (Design report)
Review Design Report for conformity with general design intent and *Employer's* requirements.

Stage 4: Production information

Final detailing, performance definition, specification, sizing and positioning of all systems and components enabling either construction or the production of manufacturing and installation information.

Stage 5: Manufacture, Installation and Construction Information:

Definition of the fabrication, manufacturing details and installation of all components. Review, for adherence to general design intent, the manufacture, installation and construction information prepared by others; and the construction of the Works

Stage 6: Post Practical Completion

Deal with outstanding issues and feedback and assisting with familiarising Project users with the design of the works.

Constraints on how the *Consultant* Provides the Services.

Management meetings

The *conditions of contract* (e.g. Clause 15.2) and other sections of this Scope may require that a meeting be held. However the intention of all NEC contracts is that the Parties and their agents use the techniques of partnering to manage the contract by holding meetings designed to pro actively and jointly manage the administration of the contract with the objective of minimising the adverse effects of risks and surprises for both Parties.

Depending on the size and complexity of the *services*, it is probably beneficial for the *Employer's Agent* to hold a weekly risk register meeting (Clause 15.2). This could be used to discuss compensation events, subconsulting, overall co-ordination and other matters of a general nature. Separate meetings for specialist activities such as programming and activities of a technical nature may also be warranted.

Describe here the general meetings and their purpose. Provide particulars of approximate times, days, location, and attendance requirements, stipulating that attendees shall have the necessary delegated authority to make decisions in respect of matters discussed at such meetings. The following text could be used as a model for this section:

The *Consultant* is not entitled to bill a time charge for management meetings and meetings of a specialist nature as specified elsewhere in the scope unless specified and agreed by both parties prior to the meeting.

Regular meetings of a general nature may be convened and chaired by the *Employer's Agent* as follows:

Title and purpose	Approximate time & interval	Location	Attendance by:
Risk register and compensation events	Weekly on _____ at _____	[•]	<i>Employer's Agent, Consultant and Contracts Management</i>
Overall contract progress and feedback	Monthly on _____ at _____	[•]	<i>Employer's Agent , Consultant and [•]_____</i>
Quarterly Contracts Management Meetings	Quarterly on _____ at _____	[•]	<i>Employer's Agent, Consultant and Contracts Management</i>
SLA Meetings	Monthly on _____ at _____	[•]	<i>Employer's Agent, Consultant and Contracts Management</i>

Meetings of a specialist nature may be convened as specified elsewhere in this Scope or if not so specified by persons and at times and locations to suit the Parties, the nature and the progress of the *services*. Records of these meetings shall be submitted to the *Employer's Agent* by the person convening the meeting within five days of the meeting.

All meetings shall be recorded using minutes or a register prepared and circulated by the person who convened the meeting. Such minutes or register shall not be used for the purpose of confirming actions or instructions under the contract as these shall be done separately by the person identified in the *conditions of contract* to carry out such actions or instructions.

Consultant's key persons – Consultant to complete full team details if necessary

State any additional constraining requirements on *Consultant's key persons* over and above those already stated in clause 22.1 or in the Contract Data. Such as need to notify contact details, leave and mentoring requirements where applicable.
