

	<b>Enquiry</b>	
1	I would like to enquire whether there is a Bill of Quantities (BOQ) available for the tender referenced above. If not, could you please advise on the appropriate method for pricing?	
2	Is the tender only for the supply of the Calcium Lignosulphate based chemical for ash dust suppression or is it also the application of spraying the dust suppression on to the ash dump?	
2.1	If it is only for the supply of the dust suppression, who will be providing the storage tanks, will that be done by Eskom or the contractor?	
3	Could you kindly confirm the size of the area, preferably in square meters	
4	whether Calcium Lignosulphonate is the required product for this application	
4.1	could you please confirm if proposing Sodium Lignosulphate or any other suitable alternative would result in disqualification	
5	Could we kindly suggest / quote on this alternative product	
6	why Calcium Lignosulfonate is specifically requested, since this is no longer produced in South Africa.	
7	Kindly confirm whether the submission of such alternatives would be acceptable for evaluation, either as a direct substitute or as an optional proposal alongside the specified product	
8	We would like to enquire whether the client is open to considering alternative products that may be more suitable given current market conditions and supply chain factors.	
9	We would like to enquire whether the client is open to considering bids from suppliers that are part of the Bargaining Council for the Civil Engineering Industry (BCCEI)	
10	Kindly confirm whether the submission of the bargaining council that guides the civil engineering faculty would be acceptable for evaluation.	
11	can we rather supply the sodium lignosulphonate as calcium lignosulphonate is not available in RSA and only on import	

12	please provide the ash dump hail roads square meter	

Responses
Please re-visit enquiry document and refer to NEC2.2 Pricelist
supply, deliver and application - Please refer to the scope of work for specification
