

TABLE OF CONTENTS

1. Introduction	12
2. Basis and Structure of the ISTPRM	13
2.1 Basis for the Koeberg IST Programme.....	13
2.2 ISTPRM Structure.....	13
2.3 Implementation Responsibilities Matrix	14
2.4 Code of Federal Regulations Requirements 10CFR50.55a.....	16
2.5 Code of Record.....	16
2.5.1 10CFR50.55a Conditions and Limitations	16
2.5.2 Deviations from Code of Record	17
2.5.3 Methods to be Adopted to comply with the ISTPRM Requirements	20
2.5.4 Testing Frequency Tolerance.....	20
2.6 Additional Guidance.....	20
3. References, Definitions, and Abbreviations	23
3.1 Normative	23
3.2 Informative	23
3.3 Definitions	24
3.4 Abbreviations	25
4. General Requirements	28
4.10 Introduction	28
4.11 Scope.....	28
4.12 Jurisdiction.....	28
4.13 Application	29
4.13.1 Components Subject to Testing and Examination	29
4.13.2 Classifications	29
4.14 Referenced Standards and Specifications	29
4.15 Organisational Implementation Responsibilities.....	29
4.16 Accessibility	30
4.20 Definitions	30
4.30 Specific General Requirements.....	34
4.31 Test and Examination Programme.....	34
4.31.1 Test and Examination Plans.....	34
4.31.2 In-Service Test Interval.....	34
4.31.3 Application of Code Cases	34
4.31.4 Application of Revised Code Cases	35
4.31.5 Application of Annulled Code Cases	35
4.31.6 Test and Examination Procedures	35
4.32 Administrative Requirements.....	36
4.33 Corrective Actions.....	36
4.40 Instrumentation and Test Equipment.....	36
4.41 Range and Accuracy	36
4.42 Calibration.....	36
4.90 Records and Reports.....	36
4.91 Scope of Records	36
4.92 Requirements	37

TABLE OF CONTENTS

4.92.1 Organisational Implementation Responsibilities.....	37
4.92.2 Preparation	37
4.92.3 In-Service Test and Examination Results	37
4.92.4 Record of Corrective Actions	38
4.93 Retention of IST Records	38
4.93.1 Maintenance of Records.....	38
4.93.2 Reproduction of Records.....	38
4.93.3 Test and Examination Records	38
5. In-Service Testing Requirements of Pumps	44
5.10 Introduction	44
5.11 Applicability	44
5.12 Exclusions.....	44
5.13 Pump Categories	44
5.14 Organisational Implementation Responsibility	45
5.20 Definitions	45
5.30 General Testing Requirements.....	45
5.31 Pre-Service Testing (PST) Requirements for Centrifugal and Vertical Line Shaft Pumps.....	46
5.32 In-Service Testing (IST) Requirements for Centrifugal and Vertical Line Shaft Pumps.....	46
5.32.1 Group A Test Procedure.....	47
5.32.2 Group B Test Procedure.....	47
5.32.3 Comprehensive Test Procedure.....	48
5.32.4 Acceptance Criteria	48
5.33 Reference Values	51
5.33.1 Effect of Pump Replacement, Repair, and Maintenance on Reference Values	51
5.33.2 Establishment of Additional Set of Reference Values	52
5.34 Frequency of In-Service Tests.....	52
5.34.1 Pumps in Regular Use.....	52
5.34.2 Pumps in Out-of-Service Systems.....	53
5.35 Data Collection	53
5.35.1 General	53
5.35.2 Pressure	54
5.35.3 Rotational Speed	54
5.35.4 Vibration.....	54
5.35.5 Flow Rate.....	55
5.60 Monitoring, Analysis, and Evaluation.....	56
5.61 Trending.....	56
5.62 Corrective Action	56
5.63 Systematic Error	56
5.64 Analysis of Related Conditions	57
5.90 Records and Reports.....	57
5.91 Pump Records	57
5.92 Test Plans	58
5.93 Records of Tests.....	58
5.94 Record of Corrective Action.....	58

TABLE OF CONTENTS

6. In-Service Testing Requirements of Valves	71
6.10 Introduction	71
6.11 Applicability	71
6.12 Exemptions	71
6.13 Valve Categories	71
6.14 Organisational Implementation Responsibilities	72
6.20 Definitions	72
6.30 General Testing Requirements	72
6.31 Pre-Service Testing	72
6.32 In-Service Testing	73
6.33 Reference Values	73
6.33.1 Effects of Valve Repair, Replacement, or Maintenance on Reference Values	73
6.33.2 Establishment of Additional Set of Reference Values	73
6.35 Valve-Testing Requirements	74
6.35.1 Exercising Test Frequency	74
6.35.2 Stroke Exercising / Testing Requirements	74
6.35.2.1 Category A and Category B Valves	74
6.35.2.2 Category C Check Valves	75
6.35.3 Valve Obturator Movement	76
6.35.4 Manual Valves	76
6.35.5 Valves in Regular Use	76
6.35.6 Fail-Safe Valves	76
6.35.7 Valves in System Out of Service	76
6.36 Leak Testing Requirements	77
6.36.1 Scope of Seat Leak Rate Test	77
6.36.2 Containment Isolation Valves (CIVs)	77
6.36.3 Leak Rate for Valves other than CIVs	77
6.37 Position Verification Testing	79
6.38 Instrumentation	79
6.50 Specific Testing Requirements	79
6.51 Power-Operated Valves (POVs)	79
6.51.10 Power-Operated Relief Valves (PORVs)	79
6.51.11 Valve Testing Requirements	80
6.51.12 Leak Testing	80
6.51.13 Valve Stroke Testing	80
6.51.14 Stroke Test Acceptance Criteria	81
6.51.15 Corrective Action	81
6.52 Other Valves	82
6.52.10 Manually Operated Valves	82
6.52.20 Check Valves	82
6.52.21 Valve Obturator Movement	82
6.52.22 Condition Monitoring Programme	84
6.52.23 Series Valves in Pairs	85
6.52.24 Corrective Action	85

TABLE OF CONTENTS

6.52.30 Vacuum Breaker Valves	85
6.52.40 Safety and Relief Valves	85
6.90 Records and Reports.....	85
6.91 Records	85
6.91.10 Valve Records	85
6.91.20 Records of Tests.....	86
6.91.30 Records of Corrective Action.....	86
6.92 Test Plans.....	86
7. In-Service Testing Requirements of Pressure Relief Devices	188
7.10 General Requirements	188
7.11 Applicability and Scope	188
7.11.2 Limitations.....	188
7.12 Applicable Definitions	189
7.13 Guiding Principles.....	189
7.13.1 General	189
7.13.2 Test Frequency, Class 1 Pressure Relief Valves	190
7.13.5 Test Frequency, Class 2 and 3 Pressure Relief Valves	191
7.13.9 Test Frequency, Class 2, 3 Pressure Relief Devices used for Thermal Relief Application.....	192
7.14 Instrumentation	192
7.14.10 Set Pressure Measurement Accuracy.....	192
7.70 PWR Pressure Relief Device Testing.....	192
7.73.1 Periodic Testing Requirements for Class 1 Safety Valves and Power-Actuated Relief Valves	192
7.73.5 Periodic Testing Requirements for Class 2 and 3 Pressure Relief Valves including the MSSV.....	193
7.73.8 Periodic Testing Requirements for Class 2 and 3 Vacuum Relief Valves.....	194
7.74 Disposition after Testing or Maintenance	194
7.74.8 Disposition after Testing of Maintenance for Class 2 and 3 Vacuum Relief Valves	194
7.80 PWR Test Method	194
7.81 Set Pressure Testing	194
7.82 Seat Tightness Testing	196
7.82.1 Inlet Pressure.....	196
7.82.2 Acceptable Seat Tightness Testing Methods	196
7.82.3 Acceptance Criteria for Seat Leakage Testing.....	197
7.83 Alternative Test Media	197
7.83.1 Correlation and Procedure	197
7.83.2 Certification of Correlation Procedure	197
7.90 PWR RECORDS AND RECORD KEEPING	198
7.91 Requirements	198
7.92 Records of Tests.....	198
7.93 Record of Modification and Corrective Action	198
8. Condition Monitoring Programme (CMP) Requirements of IST Check Valves	208
8.10 Purpose and Introduction	208
8.20 Grouping and Scope.....	208
8.20.1 Performance Improvement (PI)	208
8.20.2 Optimisation (OP)	209

TABLE OF CONTENTS

9.52.8 Corrective Action	235
9.53 The 10% Testing Sample	236
9.53.1 The 10% Testing Sample Plan, Sample Size, and Composition	236
9.53.1.1 Initial Sample Size and Composition	236
9.53.1.2 Additional Sample Size	236
9.53.1.3 Additional DTPG Sample Composition	236
9.53.1.4 FMG Sample Composition	236
9.53.2 The 10% Testing Sample Plan Additional Testing Alternatives	237
9.53.2.1 Unexplained Failures	237
9.53.2.2 Isolated Failure	237
9.53.2.3 Design or Manufacturing and Application-Induced FMG Alternatives to Testing	237
9.53.2.4 Design or Manufacturing; Maintenance, Repair, or Installation and Application-Induced FMGs Test	237
9.53.2.5 Transient Dynamic Event FMG Additional Tests	237
9.53.3 The 10% Testing Sample Plan Completion	238
9.53.3.1 Testing Plan Mathematical Expression	238
9.55 Retests of Previously Unacceptable Snubbers	238
9.60 Service Life Monitoring (SLM)	238
9.61 Predicted Service Life	238
9.62 Service Life Evaluation	239
9.63 Root Cause Determination of Failures	239
9.64 Additional Monitoring Requirements for Snubbers that are tested without Applying a Load to the Snubber Piston Rod	239
9.65 Testing for Service Life Monitoring Purposes	240
10. Augmented In-Service Testing Requirements of the Emergency Diesel Generator (EDG) Safety Related Components	255
10.1 Introduction	255
10.2 Background of EDG Scope	255
10.3 Detailed Scope and Acceptance Criteria	255
10.3.1 Pumps	255
10.3.2 Thermal Relief Valves	256
10.3.3 Check Valves	256
10.3.4 Solenoid Valves	256
10.3.5 Manual Valves	256
10.4 Implementation	257
