

C2. Pricing Data

C2.1 Pricing assumptions

The Price List is in two parts. Part 1 is for work described in the service information not requiring the Employer to issue a Task Order. Part 2 is for work to be carried out within a stated period of time on a task-by-task basis and instructed by Task order. The service may compromise work under Part 1 only or Part 2 only or a mix of both.

Entries in the first four columns of Part 1 of the Price list are made either by the Employer or the tenderer. Entries in the first four columns of Part 2 of the Price list would normally be made by the Employer as the party most likely to know the kind of work which will be instructed by the issue of the task orders. The tenderer then enters a rate of each item and multiplies by the expected quantity to produce the price to be entered in the final column.

If the Contractor is to be paid an amount for the item which is not adjusted if the quantity of work in the item changes, the tenderer enters the amount in the Price column only, the Unit, Expected quantity and Rate columns being left blank.

If the Contractor is to be paid an amount for the item of work which is the rate for the work multiplied by the quantity completed, the tenderer enters a rate for each item and multiplies it by the Expected quantity to produce the price, to be entered in the final column.

If the contractor is to be paid a price for an item proportional to the length of the time for which a service is provided, a unit of time is stated in the unit column and the expected length of time (as a quantity of the stated units of time) is stated in the expected quantity column.

The rates and prices entered for each item includes for all work and other things necessary to complete the item.

	Category	Daily Rate	Monthly Rate
	Armed CPO (bodyguard) grade B PSIRA registered with standard equipment (as listed on the scope of work).		
	SUV Vehicle 4x4
