Dear Tenderer

SPECIAL NOTICE TO TENDERERS – ADDENDUM NO.1

Request for Proposal (RFP) / Invitation to Tender (ITT) Ref: **E1764GCDLPMED**

THE PROVISION OF A DELIVERY PARTNER (OWNER'S ENGINEER AND FIDIC ENGINEER) FOR THE MEDUPI POWER STATION FLUE GAS DESULPHURIZATION PROJECT.

With regards to the above enquiry, please take note of the urgent notification below:

Prospective tenderers for the delivery partner services may also be prospective tenderers for the works of the FGD retrofit project. If both of the delivery partner services contract and the works contract were awarded to the same entities, or to affiliated entities, it could create an unacceptable conflict of interest for the Employer.

A provision has been drafted, and will be included in the tender that is in the market for the works for the FGD EPC Project, which will regulate how conflicts of interest will be evaluated and assessed for the purposes of the award of the works for the FGD EPC project, bearing in mind the then-known identity of the Delivery Partner who will have been appointed by the time the tender closes for the works for the FGD EPC retrofit Project.

Prospective tenderers are cautioned to consider this aspect when preparing their tenders for the delivery partner tender and consider the wording of the conflict of interest clause that will be included in the tender that is out for the works for the FGD EPC Project.

All other Conditions of Tender remains unchanged.

Yours sincerely

Brendah Shange
