

TRANSFORMER AND SWITCHGEAR SERVICES

Scope of work – Supply and Delivery of Steel and welding supplies.

The scope of work covers the supply and delivery of Steel and welding supplies to the Purchaser's premises in Rosherville for a period of three years. The contract does not guarantee that any specific quantity of components will be bought over the period of the contract. The steel and welding supplies will be purchased for transformer repair and rewind projects on an "as-and-when-required" basis. The scope includes making available and providing of technical expertise and support with regards to the incorporation and use of the components that are supplied to the Purchaser under this contract. The general use of such expertise will be deemed to be included in the prices quoted for the items in the schedule.

Delivery requirements

Materials must be delivered to the T&SS Receipt and Dispatch premises in Lower Germiston Road, Rosherville.

All costs for delivery must be included in the quoted price for the material.

All vehicles must comply to the relevant Eskom Rotek Industries safety policies and procedures when entering the premises.

All vehicles entering and leaving the premises are subject to and must comply with a security search.

Materials must be protected against damage, moisture and dirt.

T&SS reserve the right to inspect materials at the premises of the supplier before deliveries are affected by the supplier. Such inspections will not relegate any of the supplier's responsibilities to perform in terms of this contract.

Offloading facilities and labour will be provided by the Purchaser
