

Statement of Commitment to SHEQ

The Management and staff of *Eskom Rotek Industries is committed to providing a one-stop service to its customers through offering mission critical, strategic and commercial lifecycle services, whilst embracing Zero Harm.

To achieve this commitment, Eskom Rotek Industries will:

- Utilise the best available resources including competencies, skills, materials, technologies and information to achieve objectives within required timelines;
- Apply risk-based methodologies across all operations and SHEQ disciplines;
- Ensure compliance to ISO 9001, ISO 14001, ISO 45001, ISO 17025, ISO 17020 as well as statutory and regulatory requirements by conducting regular audits;
- Promote Zero Harm philosophies through ongoing training and awareness;
- Ensure continual improvement of the SHEQ management system by measuring its performance and taking swift action;
- Strives to do everything that is reasonably practical to ensure a COVID-19-free and safe working environment for employees, service providers and visitors.

**Eskom Rotek Industries comprises Bulk Material Services, Logistics Services, Construction Services, Transformer and Switchgear Services, Turbo Gen Services and Support Services.*
