## 1. INTRODUCTION

Eskom has embarked on the Just Energy Transition (JET) journey in some of its coal fired power stations. Eskom's JET's vision focuses on achieving "Net Zero" carbon emissions by 2050, with an increase in sustainable jobs.

As part of repurposing its ageing power stations, Eskom is considering supporting local companies operating in the ash beneficiation space. The outcome of these initiatives should include re-skilling and training of communities local to

## 2. REQUEST FOR INFORMATION

The intention of this RFI is strictly an information-gathering and market-testing exercise only regarding ash beneficiation.

Respondents are requested to submit supplementary information which they may deem relevant to the information requested.

Respondents are to provide inputs / information related to the information requested in PART B of this RFI.

Eskom guarantees the supply of ash at the above sites.

The ash beneficiation products to include brick and block for use:

- under Repowering Projects for roads and pathways to the new Renewable Energy sites.
- under Repurposing Projects for new buildings and refurbishment of facilities.
- for demand beyond the power station.
