2. CONTRACT CONDITIONS

The contract will be subject to NEC3 Engineering & Construction Contract (ECC3) with the following options:

Main Option:

B: Priced contract with bill of quantities

Dispute resolution Option

W1: Dispute resolution procedure

Secondary Clauses:

X2: Changes in the law

X5: Sectional Completion

X16: Retention

X18: Limitation of liability

3. SCOPE OF WORK

The specification will be designed and installed by the contractor as per the Request for proposal and approval will be granted by the engineers:

The design solution must accommodate and supply power to each of the 9 stands at Santiago and Hamilberg farm located on Drakensburg foothills. The expected output of the solar PV is 5kWp (assessments must be done to establish output) and must include an inverter and battery energy storage.

Public

	Letter of Acceptance for NEC Contracts	Template Identifier	240-43921804	Rev	6
		Document Identifier	240-120905531	Rev	1
		Effective Date	01 March 2016		
		Review Date	April 2025		

The scope shall consist of but is not limited to:

- The off-grid systems shall supply power at Santiago to 9 stands and 14x20A electrification loads.
 - The solution shall be designed to provide power to each stand or group of houses in an off-grid configuration
 - The design selection must comply to the requirements set out in the environmental studies.
- The DEE have requested that this site should be rooftop PV or structure mounted but will not be containerized. The Works shall be executed in total, to Employer's requirements, as per designs and in accordance with the relevant specifications and Employer standards.

4. CONTRACT DURATION

The contract period is one (1) month and (2) weeks. The contract will start from 01 April 2026 and ending on 08 May 2026.

Yours faithfully

Acceptance by:

Employer (Eskom):	
Procurement Manager name:	Nhlanhla-Zetu Nciza
Designation:	Senior Manager Asset Creation (Acting)
