

Questions & Answers for the supply and delivery of various Trucks,LDV & Sedans (MWP1713DX and MWP1712DX)

Item	Questions	Answers	Clarity published dates
1	<p>Please advise in regard to the above Tender number “MWP1713DX” under the technical criteria of the mentioned tender that the above supplier provided us with only a single document accommodation all the required OEM letters as per Eskom evaluation so the question here is that would it be sufficient in terms of accommodating all the required letters, since they said that they can only provide with all the letters when we are purchasing?</p>  <p>20221115131830312.pdf</p>	<p>All letters / documents need to be submitted with the tender documents to do the evaluation after the closure of the tender.</p>	23/11/2022
2	<p>I just need clarity regarding the scope of supply for this tender as historically we have quoted for the drilling rig and Eskom has supplied the carrier truck however in this case there are 2 trucks in the pricing schedule. Does the bidder need to offer all three these items to qualify? Since the drill rig only requires one truck – why is the tender requesting pricing on two trucks?</p>	<p>One Truck 4x4 and a drill cannot be fit onto it. One truck 6x4 and that is the vehicle require a drill.</p>	23/11/2022
