Eskom TPD Project Team

Eskom Project Manager: C. Mbuyisa

Manages the contract signed with the Principal Contractor and ensures that H&S specifications are developed and issued with tender enquiries, and that the Principal Contractor's H&S plan is approved prior to commencement of work. He must ensure that applicable legal and other requirements are complied with by the Principal Contractor and (if applicable) their contractors.

Eskom Construction Agent: N/A

Where a construction permit is required, the Agent shall act as the representative of the client. The duties of the client shall, as far as is reasonably practical, apply to the Agent.

Eskom Engineering Manager: TBA

Ensures that the designer fulfils his professional and legal obligations with respect to the implementation of his design.

Eskom Project Site Supervisor: TBA

Is responsible for the overall management of the project on-site and is accountable to the Project Manager.

Eskom Safety Risk Manager: B. Mabena

Provides assurance, advice, and support to the project in the management of H&S issues. They will also assist in the development of project's H&S Specifications which will be issued with enquiry documents, and ensures that Contractors H&S plans are submitted; evaluated and approved.

Designer: TBA

Is responsible for the overall management of the project design as well as ensuring the management of the compliance of the completed works to the design during and after construction on site.

1. Introduction

Transmission Projects Delivery (TPD) is committed to ensuring a safe working environment in line with the Eskom Safety, Health, Environmental and Quality Policy, and legislative obligations.

These Health and Safety requirements (hereinafter Requirements) are TPD's minimum requirements for the specific contract, and the contractor/service provider shall fully comply with them for the duration of the contract period.

The contractor/service provider shall develop a Health and Safety framework (hereinafter the Framework), which responds to these requirements and relevant legislation.

TPD in no way assumes the contractor's legal responsibilities. The contractor / service provider is accountable for the quality and execution of his health and safety programme for his employees and appointed sub-contractor employees.

These are minimum requirements and should not be construed as exhaustive.

TPD may add or subtract other Requirements, as and may be necessary and the contractor / service provider shall respond accordingly in his framework.

The contractor/service provider shall incorporate details in terms of how COVID-19 is going to be managed, monitored, controlled in the workplace.

The contractor shall develop a detailed documented safe work procedure (SWP) to support the H&S framework to effectively manage the risks of COVID-19 and refer to the document in the H&S Plan.

2. Supporting Clauses

2.1 Scope

These Requirements list the Legal and TPD requirements and where applicable, requirements pertaining to Local Authorities / Municipal by-laws that must be met by the contractor / service provider.

Public

When downloaded from the document management system, this document is uncontrolled and the responsibility rests with the user to ensure it is in line with the authorised version on the system.

No part of this document may be reproduced without the expressed consent of the copyright holder, Eskom Holdings SOC Ltd, Reg No 2002/015527/30.

	HEALTH AND SAFETY SPECIFICATION Professional Service Contracts	Template Identifier	240-73198256	Rev	2
		Document Identifier	240-166910358	Rev	1
		Effective Date	November 2021		
		Review Date	November 2024		

2.1.1 Purpose

To indicate to contractors/service providers the H&S requirements, upon which their planning for the management of H&S will be based on and thus produce their H&S framework.

2.1.2 Applicability

These requirements are applicable to any contracting organisation who intends tendering for the contract.

This specification is applicable to all Contractors, Service Providers, Suppliers and all activities and processes carried out for and on behalf of TPD.

3 Specification

3.1 Scope of work

Location: Prairie Substation HV Yard

GPS Coordinates: -Latitude: TBA

Longitude: TBA

Project description/ scope of work:

- Re application of silicone coating on identified primary plant equipment: Prairie Substation HV Yard.

Program details:

- Submission of final H&S Plan must be before site establishment /access to site.
- Anticipated date for the commencement of work on site: **TBA**
- Project completion date or project duration: **TBA**

Note: The contractor / service provider will be known as the “principal contractor” and any contractor appointed by the principal contractor will be known as the “appointed contractor or Sub-contractor”.

3.2 Legal Compliance

3.2.1 Section 37(2) (Legal) Agreement

A section 37(2) agreement shall be signed between TPD and the Principal Contractor on contract award.

Public

When downloaded from the document management system, this document is uncontrolled and the responsibility rests with the user to ensure it is in line with the authorised version on the system.

No part of this document may be reproduced without the expressed consent of the copyright holder, Eskom Holdings SOC Ltd, Reg No 2002/015527/30.

	HEALTH AND SAFETY SPECIFICATION Professional Service Contracts	Template Identifier	240-73198256	Rev	2
		Document Identifier	240-166910358	Rev	1
		Effective Date	November 2021		
		Review Date	November 2024		

The Principal Contractor must ensure that a section 37(2) agreement is compiled between itself and their appointed contractors.

The original copy of the section 37(2) agreement must be retained by the Principal Contractor and a copy retained by the responsible Project Manager.

A copy of all the agreements must form part of the respective contractor's Health and Safety file

3.2.2 Hazardous work by children (Child Labour)

The Bill of Rights in the Constitution of the Republic of South Africa is clear on the rights of children, especially when it comes to:

- a) *being protected from exploitative labour practices;*
- b) *not to be required or permitted to perform work or provide services that*
 - are inappropriate for a person of that child's age; or
 - Places at risk the child's well-being, education, physical or mental health or spiritual, moral or social development; and the Basic Conditions of Employment Act, Chapter 6 Section 43 "Prohibition of employment of children".
 - Before resorting to the use of child labour, due consideration must be given to the rights of the child in terms of the constitution.

Where the work performed is not prohibited in terms of the constitution, such work shall be conducted in terms of the OHS Act "Regulations on Hazardous Work by Children in South Africa" with emphasis on paragraph 2 Purpose and Interpretation.

Eskom does not condone the use of child labour all efforts must be exercised to avoid it.

3.2.3 OHS Act

The Principal Contractor and appointed contractors shall have an up-to-date copy of the OHS Act and Regulations which will be available to all employees.

3.2.4 Legal compliance

All contractors will comply with applicable legal requirements, including:

- The Constitution of the Republic of South Africa (particularly Section 24 of the Bill of Rights).
- Occupational Health and Safety Act 1993 (Act 85 of 1993) and its relevant Regulations.
- Compensation for Occupational Injuries and Diseases Act.
- National Road Traffic Act 93 of 1996.
- All relevant legal requirements

Public

		Review Date	November 2024		

3.3 Eskom Requirements

Contractors shall, before commencement of the project ensure that their employees are familiar with the relevant TPD H&S requirements applicable to contract services.

3.3.1 Appointment of a contractor

The Principal Contractor will be appointed by TPD on contract award and will be responsible and accountable for compliance with applicable legal and TPD requirements for the duration of the contract.

3.3.2 Appointment of sub-contractors

The Principal Contractor may appoint contractors to assist in the contract. Appointments shall be done in writing and form part of the SHE file required to be submitted to TPD.

Adequate training and instruction must be given to appointees. The Principal Contractor must ensure that appointed contractors understand their roles and responsibilities.

Note: Copies of contractor appointments must be kept in the respective H&S file.

3.3.3 SHEQ policy

The Principal Contractor and appointed contractors shall have their own H&S policy in line with their H&S responsibilities. The policy must be signed by the organisation's Chief Executive (CE) or the assistant to the CE OHS Act Section 16(2). The policy must be displayed in a prominent place within the workplace.

A copy of the policy must be filed in the contractor H&S files and attached as an annexure in the H&S Plan.

3.3.4 COID

The Principal Contractor and his appointed sub-contractors shall be registered with an appropriate employment compensation commissioner and have available a valid letter of good standing (LoGS) from such commissioner. The LoGS shall be renewed as prescribed by legislation and shall be available on the contractor SHE files.

3.4 Substance Abuse

1. Eskom shall take reasonable steps to ensure that intoxicated persons are identified and prevented from entering TPD construction sites. **The alcohol and drug permissible level is 0%..**
2. Contractors shall comply with Eskom's Substance Abuse Procedure 32-37.
3. All persons entering TPD's construction sites will be subjected to ad hoc alcohol testing.

Public

When downloaded from the document management system, this document is uncontrolled and the responsibility rests with the user to ensure it is in line with the authorised version on the system.

No part of this document may be reproduced without the expressed consent of the copyright holder, Eskom Holdings SOC Ltd, Reg No 2002/015527/30.

		Document Identifier	240-166910358	Rev	1
		Effective Date	November 2021		
		Review Date	November 2024		

4. Contractors are encouraged to compile their own procedure and to carry out regular alcohol testing of their own employees.
5. Alcohol test records must be treated as “Confidential” and filed in the employees’ personal file.

3.5 Occupational Health and medical surveillance

3.5.1 Medicals

1. Principal Contractors must ensure that their employees and sub-contractor employees have a medical surveillance program, and their employees shall undergo **entry, periodic and exit medical fitness examinations**.
2. Medical fitness certificates in the form of Annexure 3 shall be renewed annually for employees who are working on site. This shall be maintained until completion of the contract.
3. The Principal Contractor must ensure that his employees and appointed contractor employees have undergone pre-entry medical examination before starting work on the contract.
4. The Principal Contractor shall provide a documented process for managing those employees who are issued with a conditional certificate of fitness.

3.5 Appointments

For the duration of the contract, the Principal Contractor and all appointed contractors shall appoint competent employees who will meet the requirements of the OHS Act. Where appointments are made, contractors shall ensure that the appointees have been suitably trained and or informed of their responsibilities before getting them to accept such appointment.

The Principal Contractor shall ensure that there is a competent person to manage health and safety on the project.

A competent person shall be appointed to supervise the works on site.

The relevant statutory appointments shall be made in accordance with the requirements of the OHS Act which includes the requirement of a competent person being appointed in the relevant roles. The statutory appointments shall include but not limited to: Fire Fighter and Evacuation warden, First Aider, incident investigator, risk assessor, SHE representative, project supervisor or project manager and 16(2) appointments.

Public

		Document Identifier	240-166910358	Rev	1
		Effective Date	November 2021		
		Review Date	November 2024		

3.6 Risk Assessments

It is a legal requirement in terms of Section 8 (2)(d) of the OHS Act for an employer to carry out risk assessments to establish what hazards to the health and safety of persons are attached to any work which is performed, any article or substance which is, handled, stored, transported.

Risk assessments are required to be maintained. This means that significant changes to a process or activity, or any new process or activity should be subjected to a risk assessment and that if new hazards come to light during the work process, then these should also be subjected to risk assessments. Risk assessments for long term processes should be periodically reviewed and updated. Method statements or written safe work procedures are an effective method as information and record of the way jobs / tasks must be performed. Prior to start of work, risk assessments on every job/task are ideal to allow managers and employees to assess any inherent risks that could have been overlooked during the initial risk assessment or any changes that might have occurred in a period of absence. In particular if a job/task is extended over a day or halted due to inclement weather.

3.7 Safe Work Procedures and Practices /Safe Operating

The contractor shall compile written safe work procedures for all activities, aligned with the risk assessments.

3.8 Personal Protective Equipment (PPE) Requirements

1. The principal contractor must provide a detailed programme that includes the issuing, maintenance and replacement of PPE for all his employees and appointed contractors on site.
2. All contractors shall comply with the requirements of GSR 2 of the OHS Act.
3. The risk-based PPE matrix must be compiled detailing the types of PPE that is required to be issued to employees performing the respective tasks.
4. Where there are unusual instances where activities require additional type of PPE, then a risk assessment must be conducted where such PPE requirements will be identified, and the issuing be carried out.
5. All contractors shall ensure that their visitors wear and use the correct PPE whilst on worksites.
6. The contractor shall ensure that visitors to site have the relevant minimum PPE as may be required on site.
7. PPE shall comply with the relevant SANS standards.

Public

When downloaded from the document management system, this document is uncontrolled and the responsibility rests with the user to ensure it is in line with the authorised version on the system.

No part of this document may be reproduced without the expressed consent of the copyright holder, Eskom Holdings SOC Ltd, Reg No 2002/015527/30.

	HEALTH AND SAFETY SPECIFICATION Professional Service Contracts	Template Identifier	240-73198256	Rev	2
		Document Identifier	240-166910358	Rev	1
		Effective Date	November 2021		
		Review Date	November 2024		

8. Failure to provide adequate PPE to their employees is a transgression of Legal and Transmission Projects Delivery requirements

3.9 Incident Investigation

All incidents shall be investigated in terms of OHS Act General Administrative Regulations 8 and 9, using the latest revision of Eskom Procedure 32-95 as a reference, and where injuries as contemplated in sections 24 and 25 have been sustained, be reported to the Department of Labour.

Contractors shall use the standard General Administrative Regulation Annexure 1 “Recording of an Incident” form for all incident investigation reports. The objective of incident investigation should not only be a legal requirement but should establish why and how the incident occurred and find out the root cause of the incident and to decide on precautionary measures that are required to address the root cause to prevent any further recurrences of the same or similar incidents.

3.10 Emergency Management

A list of emergency numbers (local emergency numbers and Eskom ER24 numbers) shall be posted where it is visible in the office’s places such as information H&S board, eating area etc. the supplier/service provider shall ensure that all employees are familiar with the emergency numbers. Where the principal contractor or/and contractor has established their own contract with a specific service provider, those numbers must be part of the induction and be used in conjunction with local or Eskom numbers. It must be made clear to the employees that in any event one of the numbers must be used or the combination to ensure that the life of the individual is preserved. Emergency numbers shall be part of the induction.

Eskom has established a contract with ER24 (084 124) for employees and its contractor employees for emergency medical assistance incurred whilst on duty anywhere in South Africa. The telephone number is 010 205 3400.

3.11 Non-Conformance and Compliance

1. Any non-compliance to any health and safety requirement in this SHE specification is subject to discipline in terms of the Eskom Procurement and Supply Management Procedure.
2. Principal contractors shall develop and implement a non-conformance procedure for issuing to contractors for transgressions. The procedure can include “quality” related non-conformance issues. Similarly, appointed contractors must implement a non-conformance procedure.

3. Contractor project management must monitor the close-out of non-conformances issued.
4. Where non-conformances are issued by Transmission Projects Delivery, one of the close-out steps of the procedure will be for the offender to be called by the responsible project manager to explain the non-conformance issued and what plan is in place to prevent a recurrence of the non-conformance.

3.12 COVID-19

Hierarchy of Controls must be adhered to/ applied

- Avoid close contact with people who are sick or show symptoms that are associated with COVID-19 virus.
- Washing of hands often with soap and water or alcohol-based sanitiser (70% alcohol).
- Avoid touching your eyes, nose, and mouth with unwashed hands.
- Stay at home when you are sick and report to your respective supervisor/manager. Seek medical help
- Practice safe coughing, sneezing and nose blowing etiquette e.g. bended elbow/ cover your mouth/cough or sneeze with a tissue. Safely disposed of the tissue in a covered bin or plastic pocket.
- Clean and disinfect frequently touched objects and surfaces.
- Employees to disinfect their workstations including frequently touched equipment (e.g. computers, printers etc).
- Have a schedule of disinfecting the workstations, adhere to the frequencies and provide a proof in a form of signed check-sheets.
- The Contractor shall develop the COVID-19 Policy and Risk Assessment as per the current promulgated COVID-19 Disaster Management Act. Proof of the COVID-19 Policy and Risk Assessment submitted to the Department of Employment and Labour shall be kept on site.
- Ensure that the COVID-19 Plan is continuously reviewed as new amendments are promulgated by the COVID-19 Disaster Management Authorities.

Transportation of employees to work (e.g., taxis/staff busses)

- Social distancing must be adhered to.
- Daily disinfection of transport modes before and after transportation of employees and keeping of signed and updated disinfection schedule/registers.

ADDENDUM

Management of Health risk (Corona Virus Disease-2019)

This serves as an addendum to this document. Considering amendments to the Eskom Covid-19 protocols after the repeal of the COVID-19 Regulations, management of COVID-19 must outline effective preventative and control measures to be employed to manage the spread of infection to ensure Zero Harm.

Safety & Health is an important part of Eskom operations and exists to prevent harm to both people and the environment. Therefore, all construction sites shall conduct COVID-19 site specific risk assessment. During the risk assessment process, the following shall be considered:

- a) Screening-Contractors/Suppliers Employees who are sick are advised to stay at home and seek medical attention
- b) Transportation of employees and lunch breaks - management of capacity to consider Social Distancing as the site risk assessment dictates.
- c) Use of PPE - Consider wearing masks if there is a potential risk of infection, particularly when in crowded and poorly ventilated places.
- d) Keeping workplace clean-Regular cleaning and sanitisation of construction vehicles, toilets, and other enclosed spaces.
- e) COVID-19 communication and awareness - Safety Gatherings-Toolbox talk meeting to include COVID-19 awareness.
- f) Waste management- waste generation, separation, and disposal- Waste such as Gloves, Masks (including dust masks) and tissue papers generated must be placed into waste bins with a lid and considered to be infectious waste. Thus, it must be disposed of as medical hazardous waste. These bins must be lined with a red refuse bag and labelled as infectious waste. The infectious waste must be separated at the point of generation, meaning that it must not be handled further until disposed properly. The infectious waste is stored separately from other wastes generated and should be secured to prevent accidental access or tampering. The collection, transportation and disposal must be done by an appointed/appropriate contractor/service provider timeously. Wastewater from washing hands must not be left to puddle or accumulate on the ground but should be guided to the sewer system or conservancy tanks. In remote sites borehole water may be used and soak away drains (the amount of water is low) may be the most practical option (Allowable Water uses in terms of Schedule 1 of the National Water Act) no licence required.

		Document Identifier	240-166910358	Rev	1
		Effective Date	November 2021		
		Review Date	November 2024		

g) Incident management and reporting of COVID-19 cases shall be reported. Management of positive cases on contractor employees who test positive for SARS-CoV-2 with or without COVID-19 symptoms must:

- Inform his/her supervisor or manager.
- Stay at home and isolate for seven days.

h) Emergency response plan- The following contact number must be included on all sites emergency numbers For Transmission Division – Dr Sizwe Gazi-083 556 4261, gazis@eskom.co.za as well as External response partners.

Process for monitoring- The Contractor to ensure that there is monitoring and maintenance of adequate supply of disinfectants at strategic points (for hand tools & equipment). and make sure that workers follow their employer's process, hand washing with soap (minimum of 20 seconds with running water)/ sanitising (sanitizer must have a 70% alcohol base),

j) Any employee (including a contractor) who is a close contact with no symptoms of COVID-19 is not required to quarantine, and no quarantine leave may be granted

k) Eskom encourages those who are eligible to get the booster vaccines.

Note1. OHS plan must be accompanied by Emergency response plan and Site specific COVID-19 Risk assessment forwarded to the client's approval.
