## CRIMPER

An item of various constructions, specifically designed to attach connectors to the ends of wires, cables, etc.

## Properties

Property	Req	Value	UOM	Definition
JAW TYPE	N	HEXAGON		This indicates the type of jaw furnished with the item.
TYPE	Y	Two stage hydraulic, automatic pressure release		A subdivision into a particular classification.
DESIGN TYPE	N	Crimping head rotates 360°		Indicates the design type of the item.
CRIMPING RANGE	Y	50-400		The size range of the item that is to be crimped.
SPECIFICATION	N			The international specification the manufacturer adheres to when the item is manufactured.
FURNISHED ITEMS	N	Dies 50-400		Items furnished as accessories which are not specified elsewhere.

## Part Numbers

P/N Type	Part Number	Business Partner

Part Number Types: Manufacturer Part Number, Supplier Part Number, OEM Part Number

## Reference

Reference Type	Reference Number	Business Partner

Reference Types: Model No, Reference No

## Documents

Document Type	Document Number	Business Partner	Revision	Item Number

Document Types: Amendment, Catalogue, Drawing, Figure Number, Manufacturer Drawing, Specification

## Free Format Text (POD FFT - Additional Information that will appear on the PO)

C-head with 42mm opening width for easy access to the fitting

Suitable for crimping cable terminal. C-clamp. connector and overhead line

Two stage hydraulics

Automatic retraction when crimp is finished

## Inspection Text (Site specific info visible to Eskom, but not appearing on the PO)

## SAP Client Data (Internal)

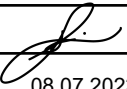

SAP Basic Data	Value	Conversion Factor
Material Type:		Y =
Unit of Measure:		X =
Material Group:		<b>Example</b>
Alt Unit of Measure:		Y * Base UOM = X * Alt UOM eg. 1 drum = 600 m where: Base UOM = Drum Alt UOM = m Y = 1 X = 600
