7 Storage and handling

This product should not be stored in the same room as:
Explosives, oxidizing agents, corrosives

8 Exposure controls / personal protection

Occupational exposure limits: No exposure limits established

Controls: The control measures appropriate for a particular worksite depend on how this material is used and the extent of exposure. The use of gloves is strongly recommended and good ventilation at the site of release.

10 Stability and reactivity

Incompatible materials: Do not mix this product with any other chemicals.

11 Toxicological information

Exposure effects:

Eye contact Eye irritant.

Skin contact May cause skin irritation and drying of the skin.

Ingestion Harmful if swallowed. Will cause burning sensation in the mouth and throat . Difficulty in swallowing and excessive salivating in infants.

12 Ecological information

This material exhibits a low toxicity to aquatic organisms

No ecological problems are expected when this product is handled and use with care.

13 Disposal considerations

There are no uniform regulations for the disposal of chemicals or residues.

14 Transport information

This is not a controlled substance

15 Regulatory information

None.

16 other information

The information contained herein is based on the present state of our knowledge.

It characterizes the product with regard to the appropriate safety precautions.

It does not represent a guarantee of the proper ness of the product.
